

How To : Dental Implants

Lecture: Single Posterior Implant Placement

LIVE
SURGERY

COURSE DESCRIPTION

This course is designed for general dentists interested in gaining a stronger foundation in the surgical approach of placing a single implant in the posterior region. This program will provide a foundational approach in surgical principles and protocols to initiate the process of placing implants in the posterior region.

Through discussion of key surgical protocols and creation of a reproducible step-by-step technique, participants will gain an introduction to the appropriate execution of basic posterior single implant placement. By the end of the course, attendees will be better equipped to understand key anatomical features, be comfortable with intraoral anatomic features, and confidently establish their own surgical protocols in their everyday practice.

OBJECTIVES

- REVIEW THE INTRAORAL AND RADIOGRAPHIC ANATOMIC FEATURES OF THE MAXILLA AND MANDIBLE TO PROPERLY ASSESS THE SURGICAL SITE BEFORE STARTING THE OSTEOTOMY.
- DEVELOP THE ABILITY TO RETRACT AND EXPOSE THE SURGICAL SITE WITH MAXIMUM VISIBILITY AND MINIMAL HARM TO THE SURROUNDING TISSUE AND DENTITION.
- UNDERSTAND THE PRINCIPLES OF FLAP DESIGN, SURGICAL PROTOCOL, OSTEOTOMY INTO IMPLANT PLACEMENT, AND SUTURE MATERIAL/TECHNIQUE.
- OBSERVE LIVE SURGERY FOR GUIDED SINGLE IMPLANT PLACEMENT.

Dr. Dimitri Haber, DDS, MSD, is a practicing prosthodontist at Houston Prosthodontic Specialists in Houston, Texas and Haber Dental Center in Glendora, California. He earned his Doctor of Dental Surgery degree at Loma Linda University School of Dentistry in 2020, his Certificate in Prosthodontics in 2023, and Master of Science in Dentistry degree in 2024, all from the same alma mater as chief resident.

Dr. Haber has taken multiple continuing education seminars in dental photography, fixed prosthodontics and occlusion, and business management. In addition, he currently is an active hands-on trainer and lecturer for implant placement with Implant Direct. He is an active member of the American College of Prosthodontists, the American Society for Dental Aesthetics, and is actively pursuing membership in the American Academy of Esthetic Dentistry.

Dr. Haber prides himself in excellent, functional, and esthetic work. He is always eager to help advance the dental profession not only by providing the care needed for patients, but also by improving and refining the skillsets of other dental professionals.
