## About Us

POWERING  
CHICAGO

BETTER CONSTRUCTION.  
BETTER CAREERS.  
BETTER COMMUNITIES.

Candor Electric, a family business, has proudly served the electrical needs of owners and contractors in the Chicagoland area since 1962. As a proud union company, we attribute this longevity to our unwavering commitment to our core values: safety, experience, reliability and innovation. From our humble beginnings to becoming industry leaders, our story is one of passion, innovation, and commitment to our clients.

## Our Commitment to Chicago: Better Construction

As a Powering Chicago, IBEW/NECA Signatory Electrical Contractor, we bring an unmatched level of experience, reliability, safety and knowledge to every job. Our workforce is composed of the most highly trained electrical workers in the country, which is a direct result of our investment in a Department of Labor approved, five year apprenticeship program. This means that our electrician's have completed a minimum of 9,000 hours of classroom and hands-on training to ensure every project is completed safely with the highest quality installation. This foundation as well as our commitment to ongoing learning, keeps us at the forefront of construction performance and innovation. That's what better construction means to us.

## Our Project Success History

From Chicago's historical landmarks to our communities learning centers, Candor Electric has played an instrumental role in our City's blueprint for over 62 years. Our wide scope of capabilities and quality driven performance, backed by our access to qualified labor, allows Candor Electric to safely complete installations on tight deadlines. These qualifications have enabled Candor Electric to successfully complete thousands of construction projects across the Chicago region across commercial, institutional, education, healthcare, industrial and residential markets.

## Vision for the Future

Our focus on emerging construction technology, clean energy solutions, and over six decades of electrical construction expertise, offer clients a trusted qualified partner for projects large or small. We invest in critical research and education through ELECTRI International, to advance safety and innovation in electrical construction.

Whether it's a historical renovation or electrical upgrade, EVSE infrastructure, energy efficiency retrofit, retail establishment, commercial build-out, education or healthcare facility, industrial plant, multi-tenant high rise, or new construction project, Candor can safely deliver top quality results for your next project.

## SERVICES & CAPABILITIES

From enhancing office lighting to comprehensive building rewiring, Candor Electric manages every aspect of your commercial electrical needs for new construction or renovation projects. Backed by a broad scope of successful projects from retail chains to hotels and hospitality, commercial high rise, historical buildings, museums, and more, our team delivers high quality results safely and on time.

- Power Distribution
- Programmable Logic Controllers (PLCs)
- Building Automation
- Solar and Photo Voltaic Systems, and Energy Efficiency Retrofits
- EV Charging Infrastructure and Electrical Upgrades

Following project completion, our team is here to support your ongoing service and maintenance needs per NFPA 70b and protect your infrastructure investment and operating efficiency in the years to come.

## Services & Capabilities

Whether it's updating electrical panels or guaranteeing a reliable power supply throughout your home, we're committed to maintaining your home's safety and energy efficiency. Our Company history ranges from multi-tenant residential high-rise, to senior communities and rental complexes, as well as single family homes. Our broad range of service capabilities allows us to help home owners and property managers with a single contracting partner for a broad scope of work.

- Wiring Modernization and Panel Upgrades
- Lighting Retrofits and Control Solutions
- Energy Savings Infrastructure
- Electric Vehicle Charging Infrastructure (Level 2 and 3)
- Fire Alarm, Communications, Security and Data Networks

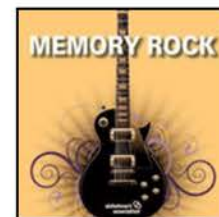

## Supporting Chicago: BETTER COMMUNITIES

Supporting Chicago and it's residents goes beyond the infrastructure.

As a Powering Chicago contractor, we value supporting the communities in which we live and work. We begin by providing better construction for Chicago, offering better careers for area youth and city residents, and building better communities by supporting philanthropic efforts that improve the lives of those in need.

We believe this is a BETTER Outcome for Chicago. Here are a few of the organizations in which we support.
