FinOps Discovery Workshop

Gain visibility, reduce waste, and take control of your cloud costs

What is it?

This workshop is designed to help you gain visibility and control over your cloud costs. By analysing your current usage, commitments and billing data, we uncover optimisation opportunities and provide clear, actionable steps to improve cloud efficiency and reduce waste.

Why we offer this workshop

Cloud spend can quickly spiral without the right insight and governance. We offer this workshop to help you align your cloud investments with real business value - using FinOps best practice.

Key outcomes

- Identify and reduce unnecessary cloud spend.

- Improve cost predictability and budgeting.

- Enable better cross-team accountability.

- Leverage reserved instances and savings plans.

- Build a roadmap for long-term cost optimisation.

What to expect

✓ Kick-off session to understand business goals and cloud architecture

✓ Review current usage, billing, and resource allocation

✓ Identify right-sizing, reservation and decommissioning opportunities

✓ Present savings insights and improvement plan

✓ Tailored cloud cost optimisation roadmap
