4 You're all set

With this investment, you increase the value of your property while adding needed space for storage, hobbies, or anything else.

We hope you enjoy it!

Who we are

In the winter of 1981, our founder Mose Miller realized a growing need for quality storage buildings. He decided to build his own out of the small workshop on his property. This is where Alpine Structures was born. As Alpine has grown since, we've stayed humbly dedicated to providing an excellent shed-buying experience: offering high-quality products with the most helpful service possible.

We credit our success first and foremost to God who has blessed us abundantly with wonderful employees and loyal customers.

– Javan Miller, owner

Warranty?

Yes! All of our structures are covered by a 5-year limited warranty. We also have 25+ year manufacturer's warranties on all shingles and siding!

Premium Build Features

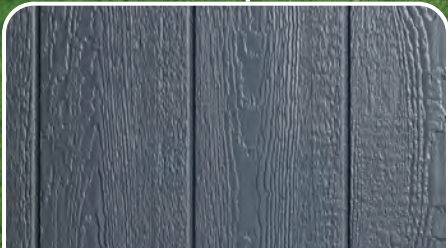

Aluminum Dripedge
Added protection against rain, snow, and ice.

Metal Truss Plates
Provides superior strength than wooden gussets.

Enclosed Soffit & Frieze Board
Standard on many Alpine Structures, optional on others.

LP Smartside Siding
Premium siding engineered for lasting beauty and durability.

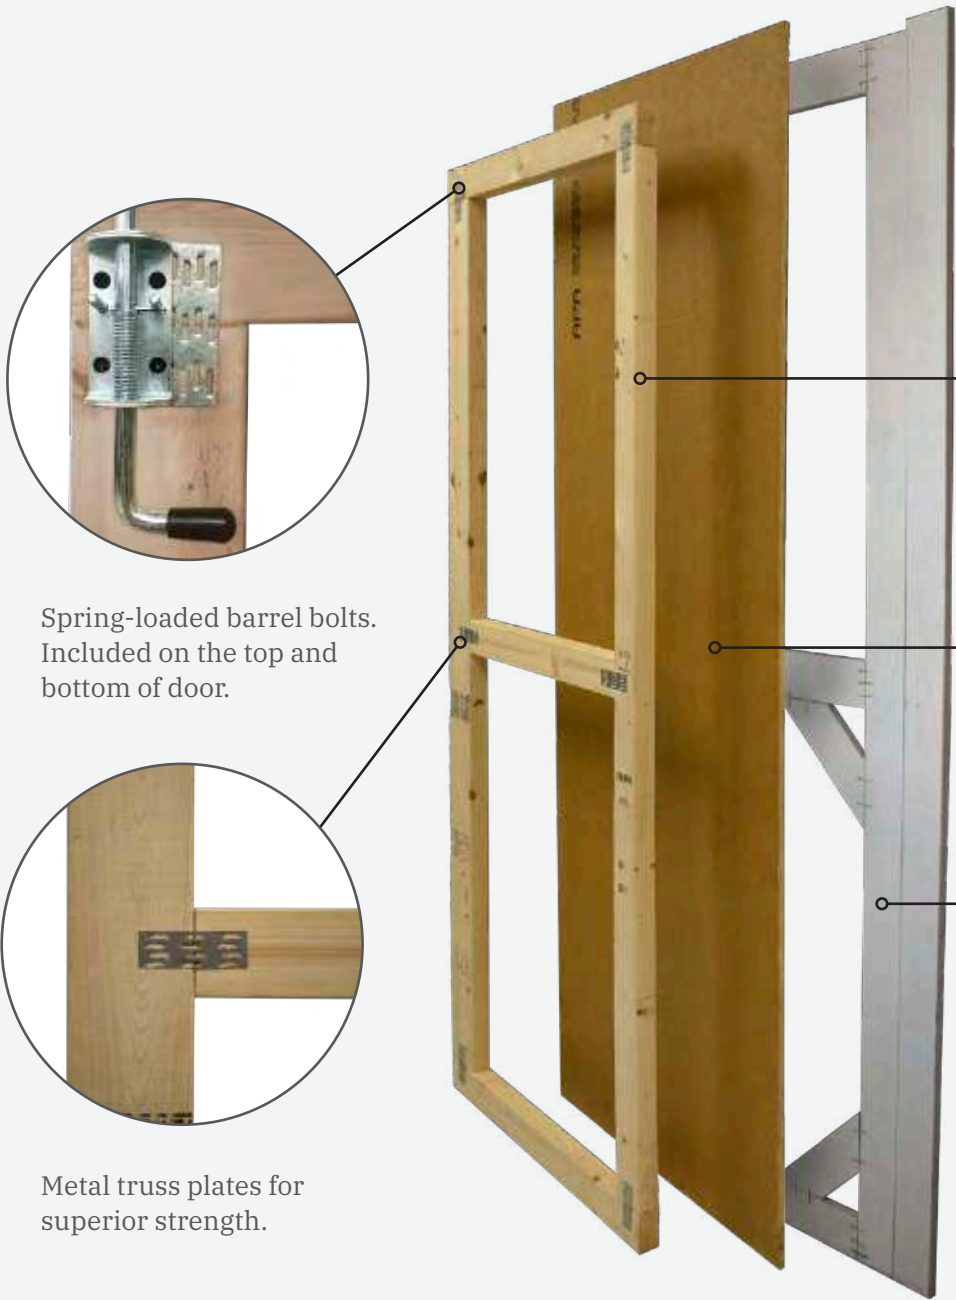

Strongback Nailer
A unique Alpine feature, this nailer allows for straighter and stronger walls and siding.

LP Smartside Trim
Decay resistant, primed trim that is ready to face the outdoors.

Triple-Layer Door System

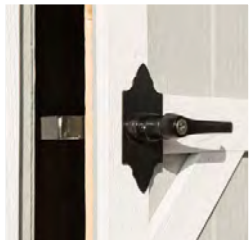

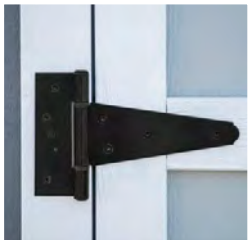

Layer #1
Our 2x3" door frame is built with premium grade lumber and fastened with a metal truss plate for superior strength.

Layer #2
LP Smartside Siding that resists warping and cracking, and defies termite damage.

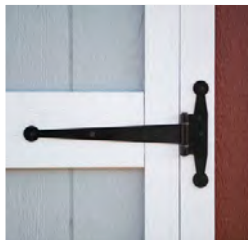

Layer #3
LP Smartside Trim that is ready to face the outdoors.

6" Heavy-duty T-hinges with bushings.
Standard on Alpine & 2000 Series.

12" Decorative T-hinges with bushings.
Standard on Riverside, Homestead & Greenhouse.

WHAT THEY'RE SAYING

"The installer was professional and very detailed in getting the shed level and in place."

Lou from Youngstown, Ohio
October 2025

Large Structures

Garages, Loft Barns & Cabins

Looking for an easier process to build a larger structure?
Find a the right space for your needs, whether for your vehicles,
recreation, a second space, or whatever else you may need!

First steps to your Large Structure

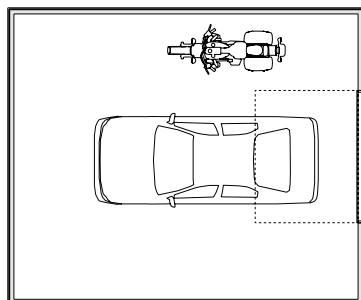

1. SELECT A BASE STYLE

See the following pages (34-41) for details on our base styles.

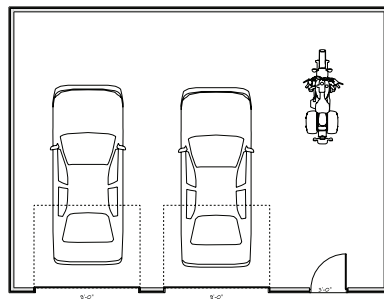

2. CHOOSE THE RIGHT SIZE

Depending on the space you need, we've got flexible sizing options:

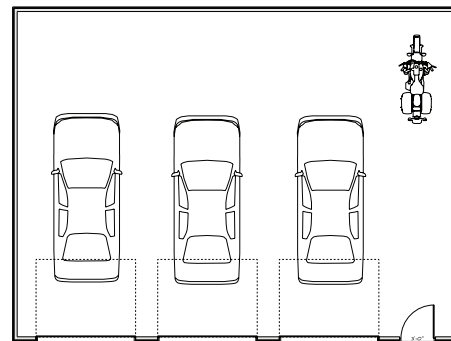

20x24' One Car Garage

24x32' Two Car Garage

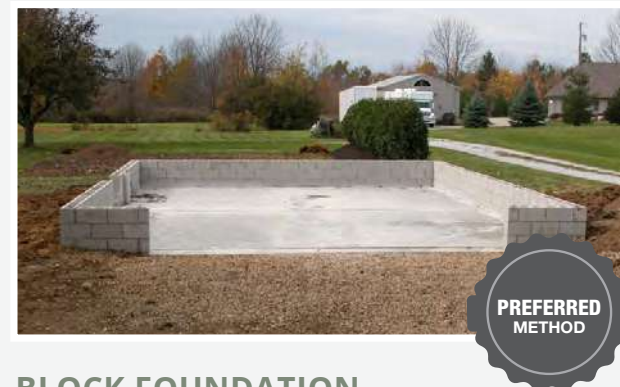

30x40' Three Car Garage

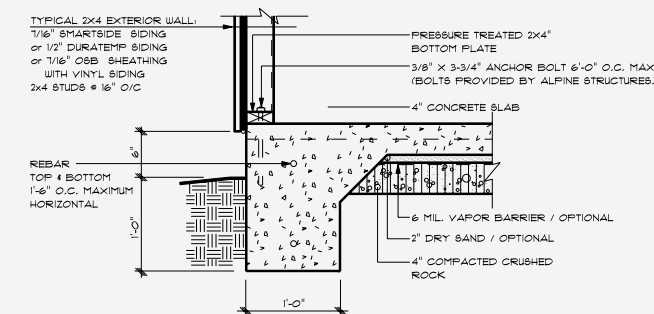

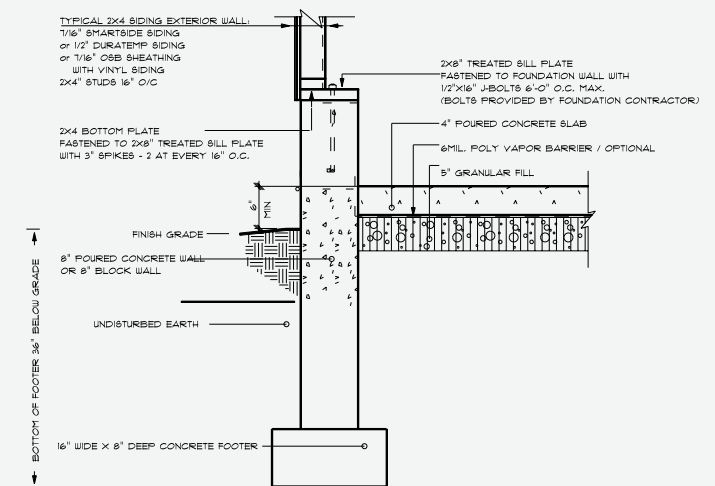

3. CHOOSE THE RIGHT FOUNDATION

Select the foundation that fits your site.

BLOCK FOUNDATION

Solid frost protected foundation with the best longevity. Necessary for garages and larger buildings with more weight.

MONOPOUR FOUNDATION

A similar method to the block foundation can be slightly more cost-effective. Site needs to be totally level.

POST & RIM FOUNDATION

Economy grade foundation that works in some applications.

POST & BEAM FOUNDATION

Ideal foundation for uneven ground that is sloped more than 2'. Works well for A-Frame and Barn style cabins.

Barnstyle Cabin

with 6' overhang

16x28' Barnstyle Cabin
Options shown: windows, metal roof, roof awning, venture decking, painted driftwood with black trim

standard feature – full loft with steps and railings

Configuration & Delivery

Flexible Options.
Fast Turnaround & Customization.

At Alpine, you're in control. From colors and roof materials to windows, doors, and accessories, you can configure your structure exactly the way you envision it. And with multiple buying paths — ranging from ready-now models to fully custom builds — you can choose the experience that fits your timeline, budget and style.

Lot Models

Ready for quick delivery through our network of dealers — ideal when you want speed with minimal configuration.

Configured Builds

Use our online visualizer to tailor your structure with your preferred layout, colors, materials and accessory placements.

Fully Custom

For the ultimate personalization, we can modify structural elements and craft a design that matches your floor plan, aesthetic or unique vision.

Built On-Site Structures

- Available in any size building
- Onsite construction eliminates access problems
- Prefabricated panels & trusses are built in our facility
- Optional Painting/Staining *Painted before we deliver!*

Built on-site structures are prefabricated in our facility and assembled on the job-site, allowing us to build your shed right on the spot.

Prebuilt Structures

- Available in smaller sheds *(contact salesman for size limitations)*
- Access needed to site
- Delivered fully assembled
- Includes Painting *(with Smartside Siding)*
- Mule Delivery available

Prebuilt structures are assembled in our facility and delivered to your site by truck and trailer. Painting is included on buildings with smartside siding.

Doors Back

Doors Passenger

Mule delivery

Site Prep

We offer several of these site-prep options.
Ask your salesman for availability in your area.

LEVEL LIMESTONE BASE

- 1. Limestone base should be 12" larger than building on four sides.
- 2. Remove 3-4" of sod.
- 3. Fill back in with No. 8 or No. 57 limestone.
- 4. Make sure entire area of limestone is level.

PATIO BLOCK BASE

8"x16" x 2" thick concrete patio blocks are placed underneath each skid a maximum of 6' on center.

BLOCK / 4X4 FOUNDATION

4x4"s are placed crossways underneath building. 4x4" supported with solid concrete blocks on low side and dug into ground (as needed) on high side.

Great for smaller sheds!

ProStruct Flooring

FEATURES & BENEFITS

A Shed Floor With Protection Against Decay & Damage

The shed floor you've been searching for is here, specially treated with SmartGuard® wood strand technology to resist fungal decay and termite damage.

Knot and Void Free

Durable overlay for a professional-grade appearance with no knots or voids so your shed floor is as durable as it is attractive.

Longer-Lasting Performance

SmartFinish® flooring has excellent resistance to warping, splitting and cupping.

LP SmartSide Siding

FEATURES & BENEFITS

A Natural Defense Against the Elements

LP® SmartSide® products are treated through the core with LP's proprietary SmartGuard® process, delivering long-lasting strength and durability. This four-part protection system helps siding stand up to impacts, moisture, humidity, freeze/thaw cycles, termites, and fungal decay. LP SmartSide siding is backed by a 50-year prorated limited warranty.

SmartGuard® Protection Includes:

- Advanced Binders
- Water-Resistant Waxes
- Resin-Saturated Overlay
- Zinc Borate
