

SSI DevBuddy® Pricing & Licensing Guide

I. | Executive Summary

SSI DevBuddy® provides AI-powered development assistance through three licensing options:

License Models Comparison

Feature	Free Demo	Dedicated Instance	Enterprise
Duration	30 days	Ongoing subscription	Ongoing subscription
Users	Up to 5	1-100+	100+
Deployment	SSI Cloud	SSI AWS (Dedicated)	Customer premises or Customer AWS
Agentic Mode	Limited (100 actions)	Fully enabled	Fully enabled
Storage	50K pages (~2GB)	40-120GB+	Custom
LLM	Claude Sonnet 4.6	Claude Sonnet 4.6	Claude Sonnet 4.6
Support	Basic	Standard	Premium SLA
Starting Price	Free	€79/user/month + hosting	€59/user/month + infrastructure

Key Highlights:

- Agentic Coding included in all paid plans (AI writes and edits code)
- Claude Sonnet 4.6 default for superior AI-assisted development
- Flexible pricing from free trial to enterprise-scale
- Security options from shared to dedicated infrastructure
- Scalable architecture supporting 1-1000+ users
- Cost optimization options with Claude Haiku 4.5

II. | Detailed License Options

1. Free Demo License

Propose: Evaluation only.

Users: Up to 5

Features:

- Web Application with Knowledge Base
- Visual Studio Code Extension
- Agentic Mode (limited to 100 actions)
- Azure DevOps & Jira integration (100 entries)
- Basic support
- 50,000 pages storage (~2 GB)

LLM: Claude Sonnet 4.6

Costs: Free for 30 days (auto-expiry; no cancellation required)

Restrictions: Evaluation only, no production use.

2. Dedicated Instance

Purpose: For production teams - hosted by SSI.

What you get:

- Private, secure environment on SSI's AWS
- Multiple deployment configuration options available
- Full Agentic Mode (unlimited)
- Complete Azure DevOps & Jira integration
- Professional support
- Data deleted within 30 days if not renewed

Tier-Based Pricing Structure:

Tier	Users	Price (per user / month)	Included Storage	Monthly Base Cost*
Tier 1	1-20	€ 79	~ 40 GB vector storage	€539 - €2,040
Tier 2	21-50	€ 69	~ 80 GB vector storage	€1,909 - €3,910
Tier 3	51-100	€ 59	~ 120 GB vector storage	€3,469 - €6,360
Tier 4	100+	Custom	Custom quota	Custom pricing

*Including €460 hosting fee

Note: Final hosting costs depend on specific requirements and will be discussed and agreed before onboarding.

Usage & Storage Policy:

- **Default LLM:** Claude Sonnet 4.6
- Max. 15M tokens per user/month included
- Additional token usage: **€0.0026 per 1,000 tokens**
- Optional downgrade to **Claude Haiku 4.5** (-23% rate adjustment)
- Max. 1,000 requests per user/month
- Storage allocations per tenant; extra capacity on request

Usage Characteristics & Cost Impact:

- **Simple RAG (Web App):** ~25k–110k tokens/user/day
- **Agentic Coding (VSCode):** ~500k–2M tokens/user/day (10X–20X higher)
- **Estimated Agentic LLM costs:** ~€63/user/month for heavy usage

Typical Cost Example: Small Team (10 Developers)

- **License:** 10 Users x € 79 = €790/month
- **Hosting:** €460/month
- **In case of 15,4M additional AI tokens:** 15,4M x 0.0026 / 1000 = €40/month
- **Estimated total monthly costs:** € 1,290 per month

3. Enterprise License

Purpose: Secure company-wide deployment with agentic capabilities.

Scope:

- All Dedicated Instance features
- Premium SLA-based support
- On-premises or customer AWS deployment
- Full Azure DevOps & Jira integration
- Individual API connectors and Agentic SDK
- Integration services (T&M basis)
- Optional SSI AI staff augmentation services (remote or onsite)

Enterprise Pricing:

- **Users:** 100+ at €59/user/month
- **Infrastructure:** Customer-managed (AWS/on-premises)
- **Integration services:** Separate T&M billing
- **Third-party licenses** (e.g., N8N, UiPath) excluded
- **Default LLM:** Claude Sonnet 4.6
- **Cost control:** Customer bears actual LLM usage costs
- **Estimated LLM costs for heavy agentic usage:** ~€63/user/month (paid directly by customer)

III. | Which Plan is Right for You?

1. Choose **Free Demo** if:

- You want to evaluate SSI DevBuddy®
- You have a small team (≤5 users)
- You're in the exploration phase

2. Choose **Dedicated Instance** if:

- You need production-ready deployment
- You want predictable monthly costs

- You prefer SSI to manage infrastructure
- You have 1-100 users

3. Choose **Enterprise** if:

- You have 100+ users
 - You need on-premises deployment
 - You have specific compliance requirements
 - You want maximum control over infrastructure
 - You need custom integrations
-

IV. | Frequently Asked Questions

Q: What happens if I exceed the 15M token limit?

A: Additional tokens are billed at €0.0026 per 1,000 tokens. You'll receive usage alerts before hitting limits.

Q: Can I switch between Claude Sonnet 4.6 and Haiku 4.5?

A: Yes, you can optimize costs by using Haiku 4.5 for simpler tasks (23% cost reduction).

Q: What's included in the hosting fee?

A: Complete AWS infrastructure, security, backups, monitoring, and maintenance.

Q: Can I upgrade or downgrade my plan?

A: Yes, you can change plans with 30 days' notice.

Q: Is my data secure?

A: Yes, all plans include enterprise-grade security. Dedicated and Enterprise plans offer additional isolation.
