

Our expertise
is your potential.

SSI

Software in the blood.

- Over 30 years of experience
- 500+ employees
- 300+ customers
- 22+ million hours of service
- Onshore & offshore staff
- Access to an international network of experts and contacts
- Personal contact persons
- Headquarters in Germany (Munich)
- Tailor-made services
- Excellent results
- Maximum cost-effectiveness
- **Business software that really helps you get ahead.**

Two models, countless benefits.

1 Tell us which need in software development you have.

3 Put your team to work, your development team using the modern subscription model, and assign specific tasks.

YOU THINK. WE WORK.

2 Select your individual SSI developer team.

4 Adjust the size of your SSI team anytime.

With SSI, you are choosing all the possibilities that individual software development offers. With **SSI Software Development as a Service**, you book the developer capacities you need on a subscription basis. With **SSI Full Software Services**, you get the entire range of expertise beyond expectations. Choose what you need, but only pay for what you actually use.

Business Consulting

We support your company in developing modern, digital business models (Business Model Canvas), strategies and operator models.

Target-architecture

A scalable target architecture for your business software.

Program and Project management

We bring structure and dynamism to your software project.

SOFTWARE DEVELOPMENT

The core of our services.

Service & operation

Reliability as a service — we promise you that.

Digital commercialization

We make your software available on the market for your customers.

Financing concepts

Business software, not only technically feasible, but also financially.

Software for your industry.

Whether you are a startup, medium-sized business, or leading industrial company, our industry software adds value and competitive advantages to your economic sector.

- Industrial software
- Healthcare software services
- Industry software for financial services
- Supplier management software
- IoT software
- E-commerce software development
- Market research software
- Startup software development

» We combine digital and strategic expertise with humanity and empathy. At every stage of the project, our customers should feel that they have chosen the right partner to shape their digital future with them. Cooperative and always on equal terms. «

General overview

Possible technologies (excerpt)

Programming Languages	Frameworks / Platforms	Database / Data Integration	CI / CD & DevOps	AI / Data Science	Test Automation	Mobile
Python	React.js	Apache Airflow	Azure DevOps Team FoundationServer	GPT (OpenAI API & Platform)	Visual Studio Code	Xamarin
JavaScript	Next.js	AWS Glue	Terraform	Windsurf	Visual Studio	React Native
TypeScript	Vue.js	SQL Server/SSIS	Jenkins	LightGBM	TestNG	Flutter
Java	Svelte	ElasticSearch	Kubernetes	Matplotlib	Katalon Studio	iOS
GO(Lang)	SvelteKit	Redis	Docker	Cursor	Postman	Android
Rust	Angular	MongoDB	Gitlab	TensorFlow	Apache JMeter	MAUI&IONIC
Kotlin	Astro	SQLite	Git-Hub	Stanford NLP	LoadRunner	
C#	SpringBoot	PostgreSQL	Git	Keras	Selenium	
SQL	Django	MySQL	Azure MLOps	Scikit-Learn	Playwright	
Shell (Bash)	ASP.NET	Timescaledb	DevSecOps	NumPy	Cypress	
Web3	Quarkus	Influx/Grafana	Bitbucket Pipelines	Pandas	WebdriverIO	
Swift	Laravel	AWS Redshift	OpenShift	LangChain	SonarQube	
C++	Raspberry Pi	Azure Synapse		Azure OpenAI	teamscale	
PHP	.Net	GCP BigQuery		AWS Bedrock		
	WPF	Snowflake		Llama		
	Node.js			Copilot		
	spotify			SSI DevBuddy™		
	Magento					

Core technology AI

More intelligent, more agile, more dynamic: artificial intelligence has long been part of our solutions. Many SSI processes and developments are even based on it. Of course, this does not replace our decades of expertise or the work of experienced developers. AI makes our customized software products even more powerful in practice.

Our Awards

For a secure feeling SSI certificates

We are SSI Germany, and you are the reason why we always strive to improve. As part of the international SSI Group, the SSI SoftwareServices GmbH develops what makes you successful. Outstanding technical solutions and efficient processes. A trustful working relationship that results in innovative software products. That is our passion.

Innovative technology is our approach.

Technology is advancing rapidly. The SSI Group not only keeps pace – it also develops new solutions itself. Whether algorithm development, proof-of-concept services, artificial intelligence (AI), or outsourcing of custom applications: **performance is our approach.**

» The collaboration with SSI is invaluable to us. SSI not only supports us in implementing our ideas, but also contributes comprehensive expertise to develop modern, innovative mobile-first solutions – a decisive competitive advantage for us in the IIoT environment. «

Herbert Köbel,
Head of Competence Center Software
Leuze Electronic GmbH
