

TENDER to Quiet Revolution

AMV 330e

The Future of Electric Elegance.
Zero Emissions. Pure Innovation.
Made in Italy.

Embark on a New Adventure

Amy is the newest creation from Amare Group
a bold step forward in electric yachting.

Born from over a year of research and collaboration with visionary designers
and leading suppliers, Amy represents our unwavering commitment to
innovation, performance, and refined aesthetics.

Italian by Nature

Developed in collaboration with BurdissoCapponi Yachts & Design, Amy
continues a successful partnership built on precision and elegance.
Entirely designed and manufactured in Italy by Amare Group, the vessel and
propulsion system form a distinctive identity — where performance meets
timeless Italian style.

Pre-Preg Carbon Fiber Technology

Amy's structure is crafted in advanced pre-preg carbon fiber, ensuring:

- Exceptional lightness
 - Superior structural integrity
 - Smooth, flowing surfaces
 - High resistance to fatigue, UV exposure, and harsh marine environments
- A perfect balance of strength and beauty — engineered for the sea.

Award-Winning Propulsion

Powered by the MITEK Revolve electric engine, compatible with any battery configuration for flexible autonomy and optimized weight management.

Recipient of a Special Mention at the Metstrade
“DAME Design Awards 2024”.

Premium performance. Outstanding onboard safety.

Silent. Responsible. Refined.

Amy produces zero local emissions and minimal acoustic impact, making it ideal for:

- Marine parks
- Protected lakes
- Nature reserves

Designed to access pristine waters with elegance and environmental respect.
