INFINITY

Glass Installation

INFINITY Portholes, crafted from certified Stainless Steel 316L, combine superior durability, corrosion resistance, and refined design for demanding marine environments.

Their advanced gasket system ensures High Impact Resistance (HIR) and long-term reliability, while seamless integration with glazing enhances interiors with natural light and uninterrupted sea views.

IGU Glass

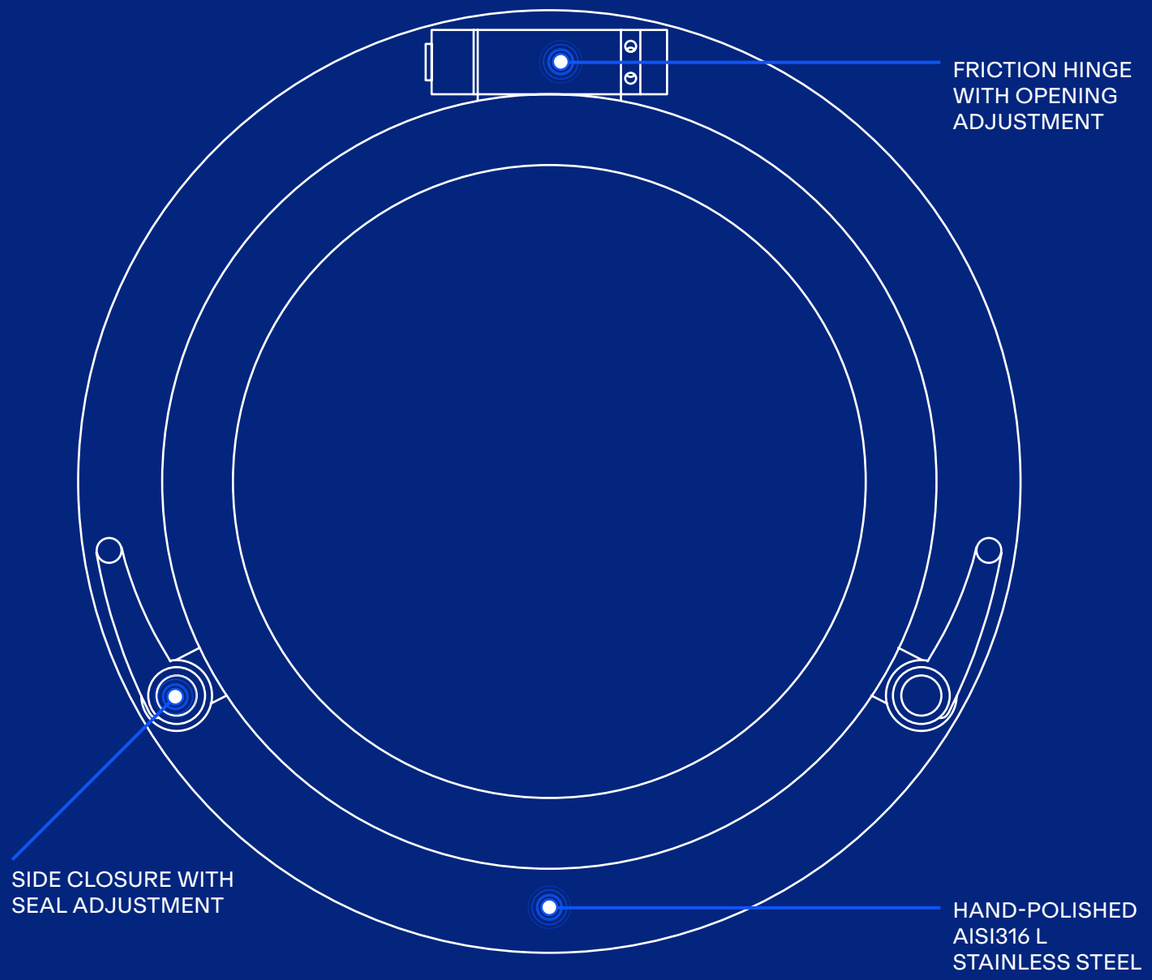

The Infinity Insulated Glass Unit (IGU) features layered tempered safety glass with Argon gas and anti-humidity salts for enhanced performance.

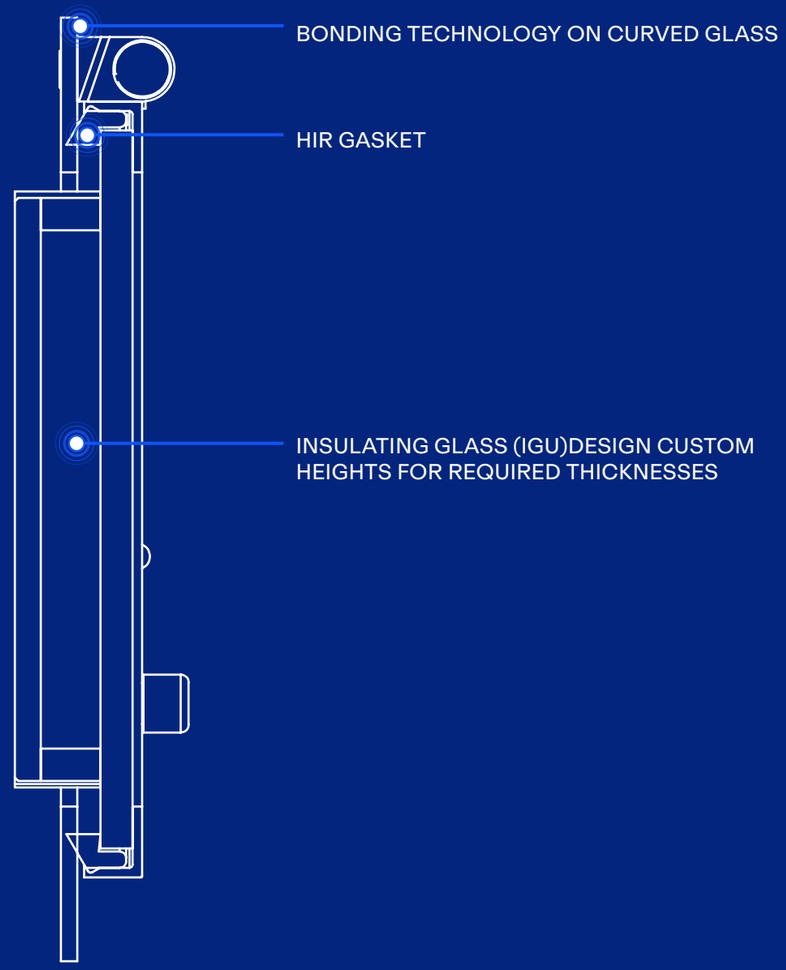

Developed by the Amare R&D team, its innovative design integrates satin-finished aluminum elements and micro-holes that gradually release the salts, ensuring superior thermal and acoustic insulation.

Finished with black screen-printed detailing around the perimeter and the signature mirror-polished frame, Infinity combines advanced technology with refined, timeless aesthetics.

PATENTED

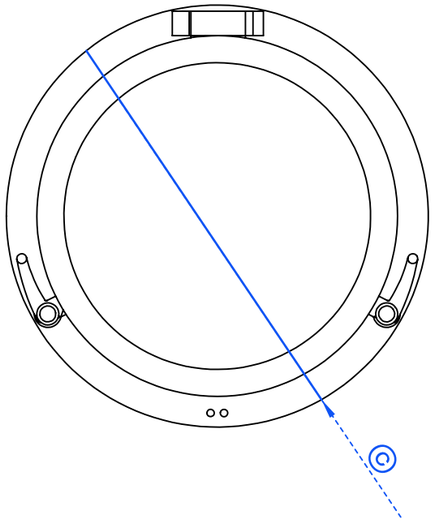

Product Overview

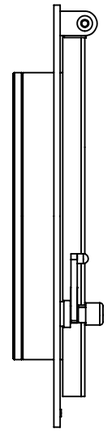

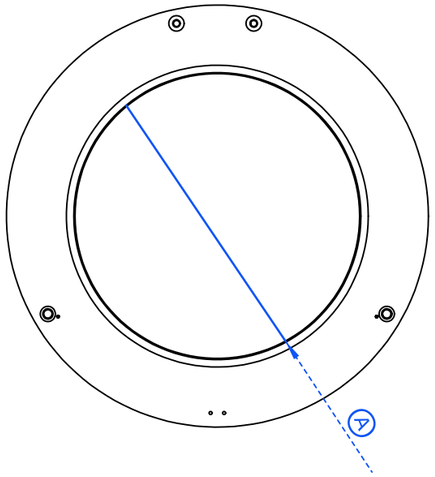

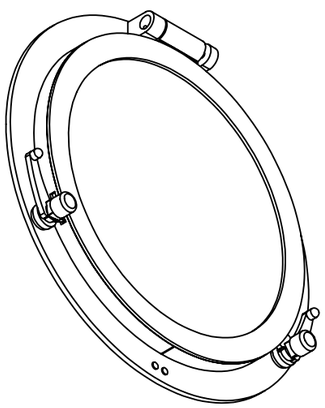

WORLD'S FIRST

CERTIFIED PORTHOLE GLUED ON GLASS FOR MCA BOATS

Amare

Tolerances according to:
- UNI EN 22768-1
- UNI EN ISO 22081

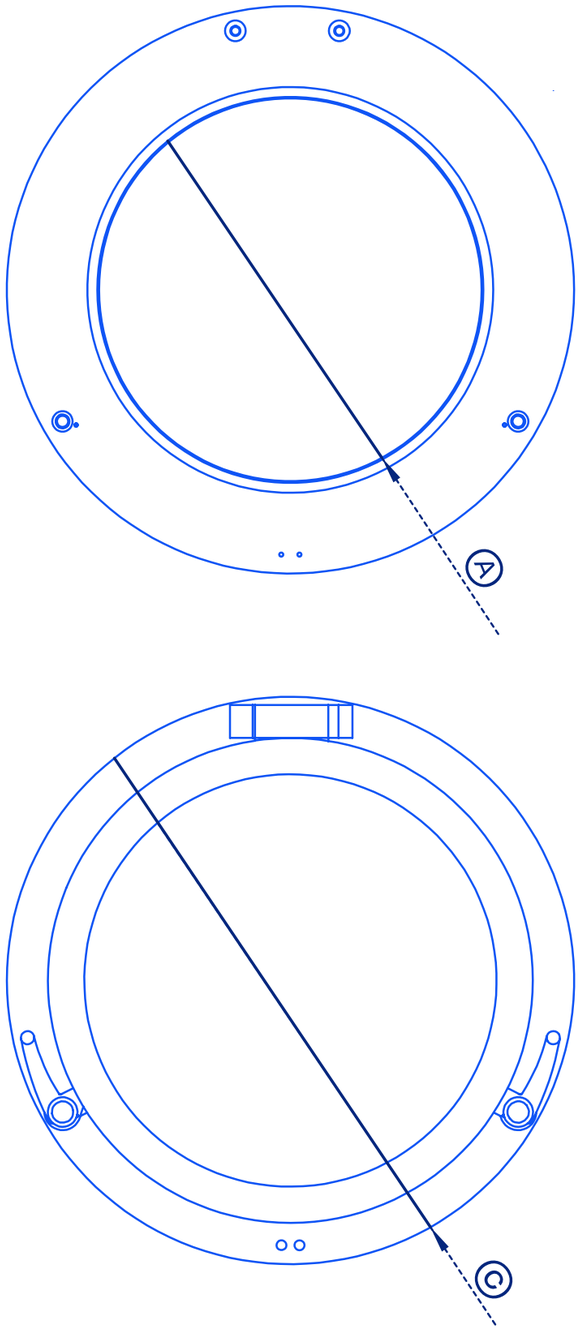

Dimensioni:	≤30	>30÷120	>120÷400	>400
Tolleranze:	±0,1	±0,15	±0,25	±0,4
Parallelismo/Perpendicolarità:		±0,2%	**Angoli:**	±30'

Se non specificato: Raggi: 0,5mm Smussi: 0,5X45°
