SUPER YACHT DIVISION
CLASSYC

Hull Installation

More than a technical component, CLASSYC Superyacht Portholes Range transform the porthole into an architectural designing feature — a sophisticated connection between interior luxury and the endless horizon of the sea.

Key Values:

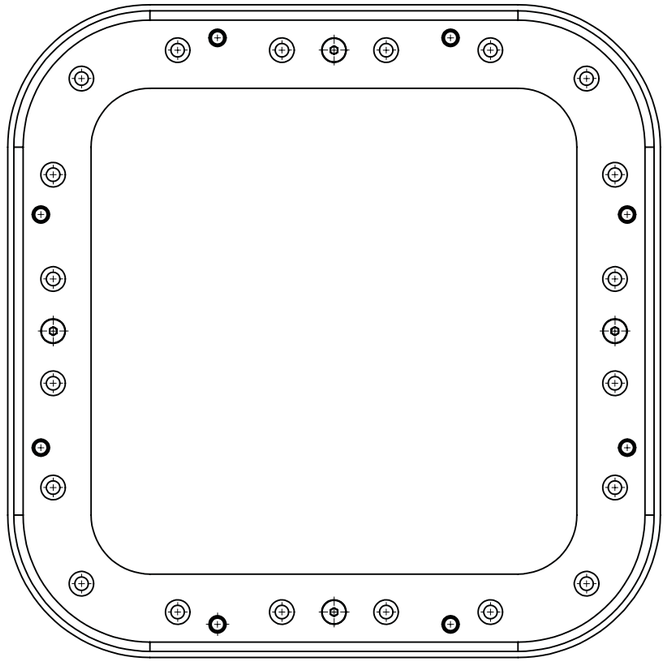

- Custom Design
- Amare Engineering Support
- Made in Italy
- Certified Materials
- Portholes Certifications
- Monitoring Portholes Sensors (opt)

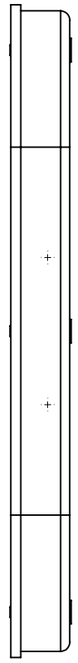

Custom-Built

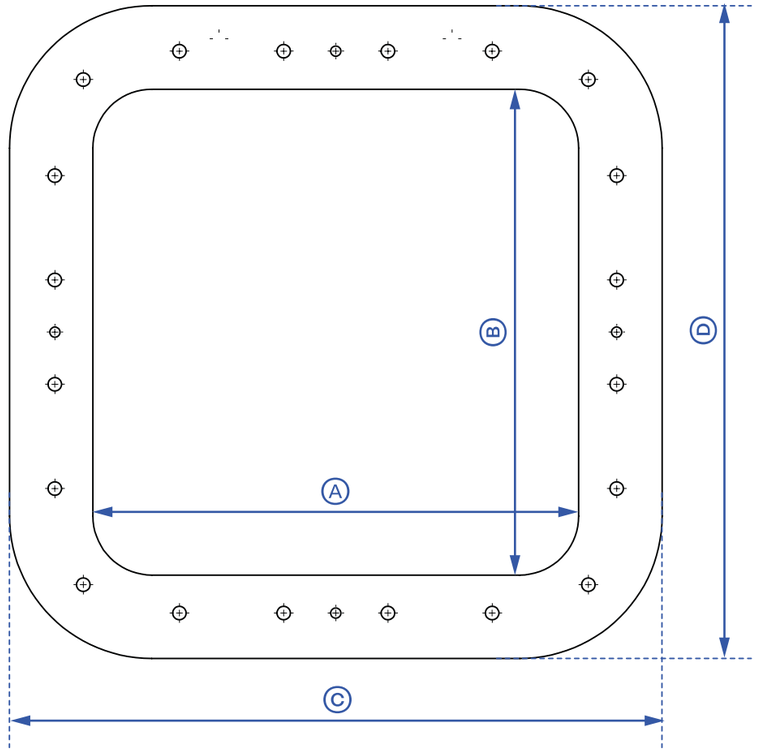

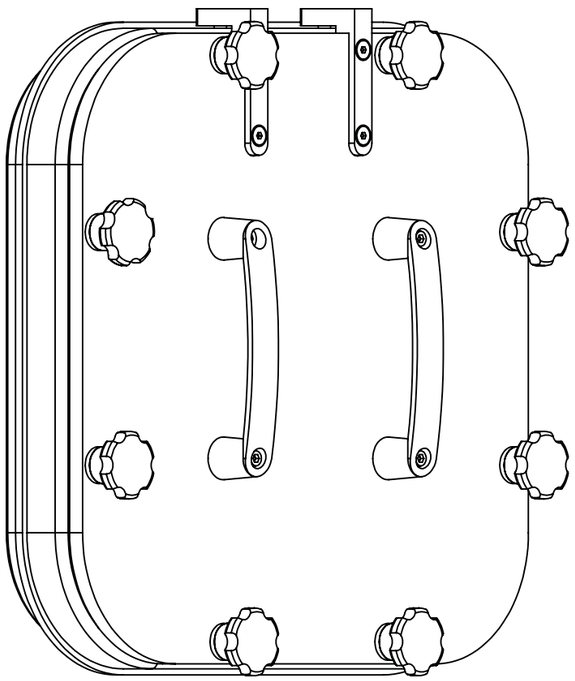

Inspired by the timeless elegance of traditional Super Yacht design, the CLASSYC Collection combines refined aesthetics, advanced engineering, functionality and certified marine reliability.

Each porthole consists of three integrated elements: a high-grade stainless steel structure offering exceptional durability, weather resistance, and long-term performances in demanding marine environments, a hinged/removable storm shutter and a perimetral frame (stainless steel or aluminum).

Dimensioni:	≤30	>30÷120	>120÷400	>400
Tolleranze:	±0,1	±0,15	±0,25	±0,4
Parallelismo/Perpendicolarità:		±0,2%	**Angoli:**	±30'
