

A Ridiculously Simple Platform to Quote, Enroll, & Manage Employee Health Benefits

Our platform not only simplifies your workflow but also allows you to retain 100% retail commissions. With our proprietary software, you can go from inputting census data to generating a quote in as little as 30 minutes, saving you valuable time and maximizing your earnings.

The Problem

Brokers understand the unique challenges of servicing small business clients profitably:

- ❓ There are less options to offer your small group clients
- ❓ The time & cost to quote and service continues to rise
- ❓ The plan options you are offering clients at renewal are never less expensive – and don't have the potential for a dividend

The Solution

MyHealthily solves these problems for small groups and their brokers by:

- ✅ Using proprietary software that identifies more options than you've ever seen
- ✅ Making sure our platform is easy to understand, easy to follow, and fully transparent
- ✅ Offering you our same system efficiencies which will save you time to earn more business

Let's Talk

Win more business all while retaining 100% commission. Our trusted advisors will help answer questions and walk you through the enrollment process at a date and time that works for you.
