

**KEYSER & MACKAY**  
ADDING VALUE TO YOUR PRODUCTS

## Coatings & Construction

### DELIVERY PROGRAM

„I am responsible for the distribution of raw materials for the production of paints, coatings, and construction chemicals at Keyser and Mackay in the Polish, Czech, Slovak, Hungarian and Serbian markets. With a background in chemical education, I am equipped to swiftly understand the needs of customers and address their daily challenges. My main goal is to focus on customer needs and find solutions that meet current sustainability trends, biodegradability and specialized additives, thereby enhancing the overall quality of products.”

Producer	Trade names	Descriptions
<b>Avebe</b>	SOLVITOSE	Starch
	OPAGEL	Modified Natural Polymer
	CASUCOL	Starch
	AVEDEX	Dextrin
<b>Chan Sieh</b>	AR	Solid Acrylic Resins
<b>Colorobbia</b>	PG	Inorganic Pigments
	CICP	Dry Pigment
<b>Double Bond Chemical</b>	PHOTOINITIATORS	UV Photoinitiators
	DOUBLEMER	UV Oligomers and Monomers
	DOUBLECURE	UV Photoinitiators
<b>Eagle Chemicals</b>	SNDA-EAGLE	Short Oil Non-Drying Alkyd Resins
	SDA EAGLE	Short Oil Air Drying Alkyd Resin
	EAGAWAX	PE Wax Solution
	EAGAHASE	Wetting & Dispersing
	AC EAGLE TP	Unsaturated Polyester Resin, Thermoplastic Acrylic Resin
	AC EAGLE OH	Hydroxyacrylic Resins, Polyester Resins
<b>First Graphene</b>	PUREGRAPH AQUA	Graphene, Graphene Pre-Dis- persed in Water, Water-Based Dispersion
	PUREGRAPH	Graphene Powder and Master- batch
<b>Gellner Industrial</b>	OTTOPOL	Cationic and Anionic Binders
<b>Hubei Huifu Nanomaterial</b>	HL	Rheology Modifier, Fumed Silica

Producer	Trade names	Descriptions
Hubei Huifu Nanomaterial	HB	Hydrophobic Fumed Silica
Hubei Jiangnan	JH V	Vinylsilanes
	JH O	Epoxy Silanes, Methacryloxy Silanes
	JH A	Aminosilanes
	JH	Silanes, Coupling Agents
Ishizuka Glass	IONPURE	Antimicrobial Additive
Jiangsu Randeon Chemical	RANDEON	Solid Polyvinyl Resins, Polyvinyl Chloride vinyl Acetate Copolymer
Nanjing Titanium Dioxide	NR	Inorganic Pigments, TiO <sub>2</sub> (Rutile)
	NA	TiO <sub>2</sub> (Anatase)
Neograf	GRAFGUARD	Flame Retardant Filler, Expandable Graphite
	GRAF-X	Graphene Nanoplatelets
	GRAF+	Graphite Powder, Graphite MB
Nimbasia	ZINC STEARATE	Lubricant, Release Agent
	CALCIUM STEARATE	Lubricant, Release Agent
Ningbo	CH	SEBS
Nouryon	LEVASIL	Colloidal Silica
Pidilite Industries	ACROLITE	Organic Pigments (Orange, Red, Violet and Yellow)
Primient Covantion	SUSTERRA	1,3 -Propanediol
Pritty	IRIDESIUM	Pearl Lustre Pigments, Interference Pigments, Polychrome, Effect Pigments, Natural Mica, Silver White, Golden Luster, Gold Rush, Iron Pigments

Producer	Trade names	Descriptions
<b>Procotex</b>	PAN	PAN Fibres
	MLD	Natural Fibres
	CF	Carbon Fibers
	AR	Armid Fibres
<b>QMEA</b>	QAMPEX	Multifunctional Neutraliser , 2-Amino-2-Methyl-1-Propanol
<b>Shandong Jinhai Titanium Resources Tech.</b>	CR	Chloride Rutile Titanium Dioxide”
<b>Specialty Minerals Lifford</b>	STURCAL	Filler, Precipitated Calcium Carbonate
	CALOPAKE	Filler, Functional Filler, Precipitated Calcium Carbonate
	CALOFORT	Filler, Functional Filler, Precipitated Calcium Carbonate
	ALBAGLOS	Precipitated Calcium Carbonate
	ALBACAR	Titanium Dioxide Extender
<b>Synthomer</b>	SYNTHOMER G	Binder, Maleic Anhydride Modified
	SYNTHOMER ESTER GUM	Binder, Thermoplastic Glycerol Ester of Rosin, Glycerol Ester Gum of Rosin
	STAYBELITE	Tackifier, Ester of Hydrogenated Rosin
	REGALREZ	Tackifier, Hydrocarbon Resin, Water-White, Fully and Partly Hydrogenated Hydrocarbon Resin
	REGALITE	Tackifier, Hydrogenated Hydrocarbon Resins , Hydrogenated Rosin Resin, Water-White, Fully and Partly Hydrogenated Hydrocarbon Resin

Producer	Trade names	Descriptions
Synthomer	REGALFLEX	Amorphous Polyolefins
	POLY PALE RESIN	Binder, Polymerised Rosin Used as a Tackifier, Pale, Non-Crystalline, Polymerised and Dimerised Acid Resin
	PLASTOLYN	Binder, Tackifier, Hydrocarbon Resin, Water-White, Fully and Partly Hydrogenated Hydrocar- bon Resin
	PICCOTEX	Pure Monomer Resin, Wa- ter-White Aromatic Resins
	PICCOTAC	Tackifier, Hydrocarbon Resin
	PICCOLASTIC	Binder, Tackifier, Hydrocarbon Resin, Pure Monomer Resin, Wa- ter-White Aromatic Resins
	PICCO	Tackifier, Hydrocarbon Resin, Dark Aromatic Resins
	PERMALYN	Tackifier, Ester of Gum Resin, Re- sin Modifier
	PENTALYN H E	Tackifying Resin, Highly Sta- bilised Rosin and Rosin Ester Resins with Different Degrees of Hydrogenation
	PAMOLYN	Oleic Acid, Fatty Acid
	METALYN	Binder, Methyl Ester of Rosin, Liquid, Plasticiser
	KRISTALEX	Tackifier, Pure Monomer Resin, Water-White Aromatic Resins

Producer	Trade names	Descriptions
<b>Synthomer</b>	FORALYN	Tackifier, Hydrogenated Rosin Resin
	FORAL	Tackifier, Hydrogenated Rosin Resin
	ENDEX	Pure Monomer Resin, Water-White Aromatic Resins
	DYMEREX	Binder, Pale, Non-Crystalline, Polymerised and Dimerised Acid Resin
	DRESINATE	Air Entraining Agent
	AERAFIN	Amorphous Polyolefins
	ABITOL E	Binder, Tackifier, Primary, Monohydric Alcohol Derived from Hydrogenated Rosin Acids, Colourless Balsamic Resin, Light-Coloured
	ABALYN D E	Tackifier and Plasticiser Resin
<b>Westlake</b>	EPOLENE	PE/ PP Waxes, Maleic Anhydride Modified, Modified PE
<b>Zhengda Polyurethane</b>	ZHENGDA ZT	Trifunctional Polyester Amine Propylene-Based
	ZHENGDA ZM	Difunctional Polyether Amine Polypropylene Glycol Monoamine
	ZHENGDA ZFL	Difunctional Polyether Amine Propylene Oxide Adduct of Nonylphenol
	ZHENGDA ZED	Difunctional Polyether Amine Polyethylene Propylene End-capped

Producer	Trade names	Descriptions
<b>Zhengda Polyurethane</b>	ZHENGDA	Additives, PEA Polyether Amine, Polyetheramines
	POLYETHERPOLYOLS	Polyols
	POLYETHER AMINES	Epoxy Composites, Polyurea Coatings, PU Coatings, Amine Terminated Polyethers
<b>Zhengzhou Hollowlite Materials</b>	HOLLOWLITE HL/HS	Functional Filler, Hollow Glass Microspheres
<b>Zhenjiang Xingxing</b>	PENTAERYTHRITOL	Flame Retardant, Intumescent Coatings
	MELAMINE	Intumescent Coatings
	APP	Intumescent Coatings

## About K&M

Keyser & Mackay is an experienced agent and distributor of specialty chemicals and equipment with an extensive network throughout the heart of Europe. Situated in the historic city of Amsterdam by one of the most beautiful 17th century canals, Leidsegracht 19 is the headquarters of a pan-European operating agent and distributor in chemical raw materials.

We represent over 100 suppliers producing a wide range of products including additives, pigments, fillers, polymers, surfactants, resins, silica's, wax emulsions, epoxy hardeners, silanes and many more.

We serve over 1000 customers with a full range of functional and synergetic products for many industries including coatings and printing inks, adhesives and sealants, plastics, construction, basic chemicals, food and feed, pharmaceuticals, personal care and many others.

Keyser & Mackay has 150 employees and offices in 8 countries in Europe, each having its own storage facilities. We work industry segmented with dedicated and experienced technically educated industry managers acting as problem solvers, supported by commercial inside sales teams. We take care of market investigation, sales promotion, logistic matters, warehousing, sampling and technical support to customers.

Adding value to your products is our goal in life. We are committed to giving support and quick response to our customers' needs, ensuring quality and transparency in all our services.

Being active in chemical distribution, we feel a large responsibility toward safety and health for our employees, customers and consumers of our products, as well as for the environment in which we live. We therefore strictly comply with all relevant regulations and rules as it comes to safety, health and environment.

We have rules and measures in place to reduce the risk for our employees, customers, society and environment to the minimum.

We constantly strive to improve our quality standards and performance and we are strongly committed to maintain our high level of engaged leadership and safety culture.

Responsible Care is the chemical industry's global initiative to drive continuous improvement and achieve excellence in environmental, health, safety and security performance.

Responsible Care embraces the development and application of sustainable chemistry, helping our industry contribute to sustainable development while meeting the world's growing need for essential chemicals and the products those chemicals make possible. As member of the Dutch Association of Traders in Chemical Products (VHCP), Keyser & Mackay is fully committed to the Responsible Care Program issued by the global chemical industry and complies to the eight core principles of Responsible Care.

ISO 9001 is an International Standard that gives requirements for an organization's quality management system (QMS). Keyser & Mackay Netherlands are ISO 9001:2015 certified, this demonstrates that we can meet the regulatory requirements and apply the system effectively by establishing basic requirements to assure product quality, so Keyser & Mackay can be of real benefit for our customers.
