

NORWINCH DECK MACHINERY

MARINE SERVICES

Neuver Maritime is your service provider for Norwinch deck machinery

The Norwinch deck machinery deliveries for new vessels was ended in the late 1990ies, but there are still thousands of vessels sailing with Norwinch equipment onboard. Through mergers and acquisitions the Norwinch after market is now a part of Neuver Maritime`s portfolio of deck machinery and motion control. Norwinch deck machinery is supported from our facility in Hagavik near Bergen at the west coast of Norway.

The support consist of technical support, upgrades/engineering, spare part sales and manufacturing, repair and testing of new and repaired components. We have invested in a new test stand that allows 100% full scale testing of all hydraulic motors and valves of Norwinch design.

Services – with you in mind

24/7 support. Our support helplines are available 24 hours a day, 7 days a week, to help with operational or technical issues.

Spares and service

Timely delivery of genuine OEM spares to your vessel is key to our operations. We are the original equipment manufacturer for Norwinch. Our parts distribution system is optimised to get the right parts to the right place in the shortest amount of time. Our Service Engineers have years of experience working with Norwinch equipment. They are available to help with the more challenging maintenance tasks and trouble shooting world wide. Neuver Maritime will do whatever we can to get you back in operation.

Service workshop

We have a full service workshop with facilities for all kinds of mechanical and hydraulic work on Norwinch equipment. We have testing facilities for the Norwinch low pressure hydraulic motors, valves and pumps for full scale testing.

We can also do repair/overhaul and factory testing of the Frydenbö steering gear.

Workshop facts

- 800 m² service workshop area
- 2x 25T lifting capacity
- Machining facility next door for any kind of re-surfacing and re-machining

Exchange units

Sometimes repair of a hydraulic motor can take longer time than desired, and buying a new one can be costly. We offer reconditioned units that have been over-hauled and tested to factory specifications and with full as new warranty, at a reduced price.

We are also interested in your old used motor, in order to overhaul and put this back in the exchange unit pool. We offer core charge for returns.

Upgrade solutions

Neuver Maritime can supply you with upgrades of your Norwinch equipment. Some of our upgrades are:

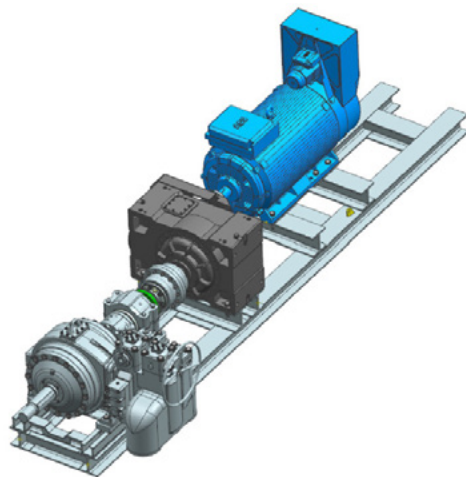

- New winches
- Extra winches
- Brake upgrades
- Increased pull force
- Remote control upgrades

Please contact us with your requirements

Winch system condition-self assessment

We realise that sending a service engineer onboard for a winch system pre-docking check might be a costly solution. We therefore offer a newly developed Self-Assessment tool where we tailor a checklist for exactly your system.

We include relevant drawings and descriptions, and give you access to an App developed to guide you through the system check. You work on any kind of tablet or smart phone that work with iOS or android system. Your observations as well as pictures and comments are fed back to us, and based on this we recommend the job scope as well as provide you with an offer for the relevant parts. the manoeuvring pump and directs the oil flow to the chambers of the actuator.
