

The Harris Partnership Commercial Units Electrical Installation

Location: Bristol

Sector: Commercial

Client: The Harris Partnership

MW Electrical completed the full electrical installation for eight commercial units, covering mains distribution, internal and external power, LED lighting, emergency lighting, and fire alarm systems.

What We Delivered

- Mains distribution across 8 units
- Internal & external power
- Energy-efficient LED lighting
- Emergency lighting to current regs
- Fire alarm systems

The Challenge

8 units built at once with tight deadlines. Needed full compliance and coordination with other trades to keep the programme moving.

The Outcome

We completed the project in 881 hours, on time and within budget. All units were handed over ready for tenants, with reliable power and lighting in place.
