

# Derby Football Hub

**Location:** Derby

**Sector:** Public

**Client:** Derby Council

MW Electrical installed the full electrical infrastructure at Derby Football Hub, providing power across the entire grounds.

## What We Delivered

- High-capacity mains supply with changeover
- Seven submains for reliable power
- Energy-efficient external lighting for pitches and outdoor areas

## The Challenge

Derby Council required an energy-efficient setup with strong external lighting, delivered on a tight pre-season schedule.

## The Outcome

Completed in 3,262 hours, on time and on budget, delivering a reliable, scalable electrical system for matches and community events.
