Become a Part of History – Help Build the Largest Monument in Tempe Arizona

Introduction: The Wheel of Civilization

We are excited to announce the construction of “**The Wheel of Civilization**” Monument, a 33-foot-tall Penny-Farthing bicycle sculpture, set to become the largest monument at Culdesac Tempe, a 400 resident (and growing!) community. Located outside Phoenix, Arizona, this monumental structure will honor the vision of a car-free, walkable America and the builders who are making it happen.

The Wheel of Civilization Monument will serve as a symbol of the Western world’s innovation and its continued leadership in the future of mobility. **With your help, we can bring this historic vision to life.**

Our Goal

We’re raising **\$45,000** (\$36k will go towards completing the monument, **\$6k** will go towards operational costs, and **\$3k** will go towards stipends for volunteers).

We’ve already secured **\$12,500** and are actively raising the remaining **\$23,500** to complete monument construction. Additional funding will fuel our operations, reward our volunteers, and launch our next project without delay.

Key Milestones Include:

- **Concrete Foundation:** Establishing a 34’x3’x2’ concrete foundation
- **Bicycle Frame and Wheels:** Rolling 2”, 3”, and 4” steel tubing and welding it into a bicycle form
- **Stylized Elements:** Laser cutting sheet metal design for the interior of the wheels
- **Site Preparation, Logistics, and Labor:** Completing the build with professional installation, necessary equipment, and finishing touches.

Funding Milestones Include:

- At the \$12,500 mark we will purchase steel tubing and pay for the structural drawings necessary for a permit
- At the \$20,000 mark we will submit our permit application, roll steel tubing, and laser cut sheet metal for interior design

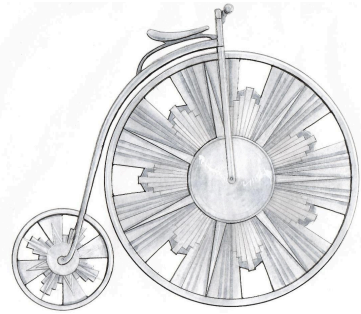

- At the \$25,000 mark we will clear the site and break ground, pouring the concrete slab once the permit is approved
- At the \$36,000 mark we will transport and assemble the bicycle with a 40-ft lift on-site, adding finishing touches afterward (lighting, visitor walkways, plaques, etc.)

With your generous contribution, we aim to complete the monument by **August 2025**.
