

FutureMe

Quick Start Kit

Everything you need to launch in your classroom — in 5 minutes.

Overview

- AI-powered platform with interactive quests that help students explore careers & plan their future
- Their AI career advisor connects them to AI-generated professionals across thousands of careers
- 89% of students say school feels more relevant to their future after using FutureMe

Quick Facts

- Free for teachers & students
- Works on any device (laptop, tablet, phone)
- No downloads or logins required — starts instantly
- Aligns to core career exploration standards
- Fits naturally into class periods (activities can be 10-45 minutes)

Step-by-Step: How To Launch

- **1) Ensure access** → Make sure students can access futureme.hopestreetgroup.org
- **2) Pick an activity** → We suggest starting with *Course-to-Career*: hopestreetgroup.org/ctc
- **3) Share link** → Share the URL, students can start instantly
- **4) Let them explore** → They'll chat with *Hope* and AI-generated professionals
- **5) Discuss together** → Use our "Reflection Prompts" or make your own

Tips from Other Teachers

- "I use it as a Friday 'future-ready' warm-up — 15 minutes, super engaging." — **Joedda, Nevada**
- "It's my go-to sub plan for days when I can't prep in advance." — **John, Illinois**
- "I use it to help students evaluate colleges, trade schools, and internships" — **Charm, California**
