- Whole student lifecycle management
- Learning and wellbeing at the core
- Manage complex fees and billing structures
- Whole community data – one user ID for life

## Modern look and feel

- Easy to learn and use
- Bright, clean interface
- Intuitive navigation
- Access on any device, anywhere, anytime

## Future proof technology

- Built natively in and for the Cloud
- Highly flexible API integrations
- Rapid development
- Seamless upgrades managed for you

## Security by design

- Full AWS-Cloud security
- Education Horizons-managed security
- Granular role-based permissions
- Leading certification: ISO 27001, ST4S

## Ready to learn more? Let's dive deeper!

Zunia is the first true 'third-generation' core operating system for schools – combining industry-leading school management and learning management software in one place.

Empower leaders, teachers, administrators, parents and students in one place with Zunia.

# So how does Zunia help your school?

## Rich community data

Records for every school community member – relationships mapped against central record through single user-ID for life.

## Whole student life-cycle management

From first enquiry to enrolment, timetables, class management, extra-curricular activities, reporting, annual roll-over, graduation and alumni.

## Attendance, wellbeing and medical

Rigorous attendance capture and resolution, medical records, alerts and incidents, and wellbeing support – all powered by seamless communications.

## Classroom

Zunia's Marksbook delivers flexible teaching, learning, assessment and academic reporting – responsive across all devices.

## Finance

Zunia's community data model handles the most complex fees and billing with flexible and secure payment options and accounting system integrations.

## Compliance

Handle critical compliance in clicks, not days with Zunia's ground-breaking value-mapping and reporting model.

## Integrations

Zunia's API-first integration layer connects best of breed software without sacrificing your 'single source of truth'.
