# Improve **school** **performance** and uplift **student learning**

Integrated wellbeing, learning and attendance management – driving deeper engagement for learning

Improve decision making through rich insights to increase school performance and student outcomes

Everything your school needs, in one place

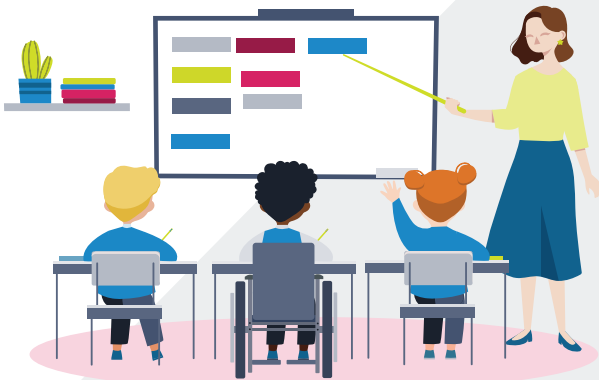

Workflows that reduce admin time for everyone

A system that engages your whole school community

Local support that's there when you need it

**“SEQTA has become one of the most powerful tools used in our school. It's the first port of call for my lesson planning, mark book, absence resolution, wellbeing and reporting”**
