GROUP

Supplying for Tomorrow, **Today**

De-risk and Optimise Your Supply Chain

Cyclops Group offers end-to-end electronic component supply chain services, providing support to minimise risk as well as optimise existing processes.

Cyclops Group has global reach, including physical locations in the US, Europe and Asia. With 35+ years in the industry, Cyclops Group is your steadfast partner for support across your component supply chain.

De-risk Your Supply Chain

Excess inventory management

A range of selling and storage options for your excess electronic component inventory.

Multiple supplier sourcing

Help with mitigating risk through diversified vendor lists, safeguarding your supply chain.

Alternate component support

Support with suggesting form, fit and function-matched parts, providing security in the event of supply chain disruption.

Authorised distribution

A wide selection of franchise partners offering product ranges and categories to suit every need.

Electronic component procurement

Expertise in sourcing obsolete, end-of-life and day-to-day electronic components from a list of global, reliable partners.

Optimise Business Capabilities

Third party supply chain services

Support with logistics and delivery, utilising global insight via our international network.

Vendor consolidation

Easier day-to-day business maintenance with managed supplier communications and invoicing.

Consignment options

Choice to receive shipments as and when they are needed, without having cash tied up in stock and warehouse space.

Kitting and PCBA

Production-ready kits and outsourced assembly services, saving time and space for other value-added services.

BoM analysis

Support with procurement and future-proofing your BoMs, backed by our extensive database of 380k+ lines, including obsolete and EOL components.
