

Sterling Green Power Solutions Chalks Out Multi-Location Capacity Expansion Plans

~Inaugurates its second manufacturing facility in Talegaon MIDC, Pune targeted at the LHP market Segment

~Another new manufacturing facility is planned at Hamariya Free Zone, Sharjah and the said plant construction works will commence soon

Mumbai; July 31, 2026 - Sterling Green Power Solutions Pvt. Ltd. (SGPS), part of the Sterling & Wilson Group a provider of comprehensive power and sustainable energy solutions, today announced the inauguration of its new state-of-the-art manufacturing facility in the industrial hub of Talegaon, near Pune. The facility marks the first milestone in the company's expansion strategy aimed at serving customers across diverse business segments while strengthening its manufacturing footprint across multiple locations.

This inauguration is the first step in the company's long-term capacity augmentation roadmap, which includes the establishment of additional state-of-the-art manufacturing facilities at Chakan MIDC and another new plant planned to set up at Hamriyah Free Zone, Sharjah.

The Talegaon facility reinforces the company's commitment to meeting the increasing demand for reliable power solutions across India's commercial, industrial, and retail sectors. The new plant will manufacture diesel generator (DG) sets ranging from 100 kVA to 750 kVA, catering to applications across the rental, hospitality, healthcare, education, government, and industrial sectors. Equipped with advanced manufacturing processes, the Talegaon facility will have an annual production capacity of approximately 1,000 units targeted at retail customers.

Speaking at the inauguration, **Khurshed Daruvala, Chairman of Sterling & Wilson Group** stated, *"We have strategically embarked on a multi-location manufacturing expansion to meet the growing demand for our products and services across our business segments. Over the years, our teams have earned the trust and respect of our customers, and it is this enduring confidence that has encouraged us to broaden our manufacturing footprint. Our new facility marks the first milestone in this journey, with additional expansions planned. This expansion roadmap has been carefully designed to uphold the highest standards of quality, enhance our manufacturing capabilities, and consistently exceed customer expectations."*

Sanjay Jadhav, Chief Executive Officer, Sterling Green Power Solutions Pvt. Ltd. said, *"Our commitment to delivering reliable and efficient power solutions that safeguard operations, enhance customer experience, and minimise downtime remains unwavering. As customer expectations continue to grow, we are expanding our manufacturing capabilities and strengthening our operations to ensure we continue delivering best-in-class power solutions with the quality, reliability, and responsiveness our customers expect."*

The company is targeting segments such as Airports, Metro Lines, Townships, Factories, etc. In fact, the recently inaugurated Navi Mumbai International Airport in Western India is fully supported by the company's back-up power solutions.
