PROFESSIONAL EXPERIENCE

Digital Product Designer February 2024 - Present
Procter & Gamble, Warsaw

I own design of enterprise products in Data & AI organisation, directly impacting brands like Gillette, Oral-B, Ariel and more.

- Achieved 4.5/5 satisfaction score from beta testers by owning the full redesign of the value share diagnostic app, addressing declining usage through research to working proof of concept.
- Cut data access time by 75% by designing a document access navigator and multiple other features that automated a previously fragmented, manual process.
- Raised CSAT from 70 to 84 by conducting extensive usability testing to improve the employee-care AI chatbot
- Scaled UX practices across multiple cross-functional teams by leading in-person UX design fundamentals workshops for 200+ managers across 3 countries

UI Designer August 2023 - January 2024
Procter & Gamble, Warsaw

- Built and documented a UI kit of 40+ reusable components, reducing design dev handoff time by 30%
- Implemented the UI kit across an internal data access platform, achieving over 90% component standardization

Junior UX/UI Designer October 2022 - July 2023
Miquido, remotely

- Designed a mobile banking app for business owners, creating wireframes, prototypes, and high-fidelity mockups
- Collaborated on the design of a desktop app for advanced studio sound editing

Intern UX/UI Designer July 2022 - September 2022
Miquido, remotely

- Partnered in designing mobile banking app for business owners

EDUCATION

Master in Management October 2023 - July 2025
Warsaw School of Economics

Bachelor in Architecture October 2019 - February 2023
Lublin University of Technology

ABOUT ME

I'm a product designer with 4 years of experience, specializing in complex B2B enterprise apps.

I own the full design process, from research to developer handoff. I use AI to synthesize research faster and explore more directions, so the solutions I hand off are both user-centered and technically feasible.

SKILLS

UX Research
Wireframing
Prototyping
Usability Testing
UI Design
Design Systems
Motion Design
3D Design
AI Prototyping
