Tap Electric

For Property Managers

What is Tap Electric?

We handle car charging payments for drivers and charger networks.

We improve the user experience of charging your car.

We help charger owners collect payments automatically for hassle-free operation of their parking facilities.

We provide access to your own chargers as well as public charging networks.

How does Tap work for Property Managers?

Install

Work with your preferred installer to get your chargers installed with Tap Electric.

Choose your tariffs

Choose your preferred tariffs, including day & night rates. Decide with your installer if you will do a revenue share with them as part of their maintenance fee.

Choose your access

Choose if each charger is available to all residents, to individuals, to guests, or to the public.

Residents subscribe

Each resident can subscribe to Tap Electric and automatically pays monthly with their preferred payment method.

Benefits

Why choose Tap Electric?

Connect your chargers **for free**.

We handle **payments** and **payouts automatically**.

We provide drivers with access to their **home, work and public chargers** with a single app and key fob.

We provide **24/7 support** by phone and email for you and your drivers

Tariffs for any situation

- **Mirror your energy contract** rates, or **add margin** to recuperate the cost of hardware

- Easily **manage tariffs per location** by setting standard tariffs, or special tariffs using user groups

- Choose any tariff you like, and **change it as often** as you like
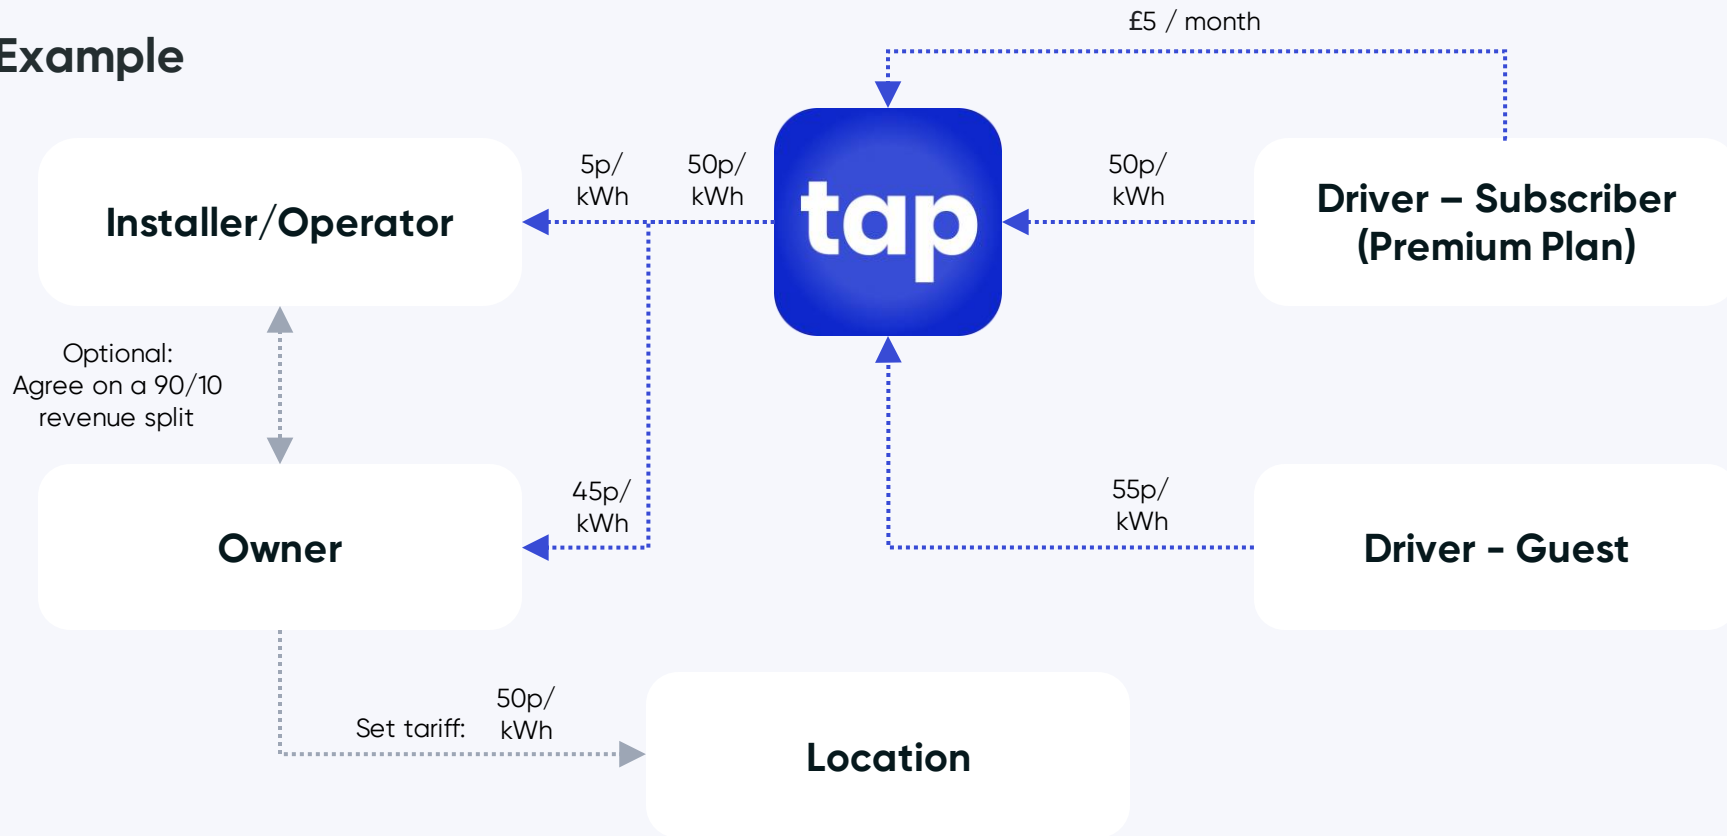

tap

What drivers pay

Drivers can either:

- Pay-as-you-go
  (owner's chosen tariff + 10%)

- OR subscribe to pay via a monthly
  invoice and get a Tapkey (RFID).
  Several plans available.

Available driver subscriptions

Light	Regular	Premium
GBP 0 /month	GBP 2 / month	GBP 5 /month
Owner's chosen tariff +8% fee	Owner's chosen tariff +5% fee	Owner's chosen tariff, no fee
-	+ RFID Tapkey	+ RFID Tapkey
