

NEWS RELEASES MADE EASY

## Your News, Amplified.

Bitwire is the modern newswire re-imagined for today's crypto professionals. Distribute your news to the media outlets that matter most.

Sharing your news should be the most celebrated moment in business.

The world is changing quickly, yet some things remain truly baffling.

- Running your company like SBF 🚫
- Arriving at the airport 3 hours before your flight ✈️
- And perhaps most puzzling of all—using a traditional newswire 📠

In today's fast-paced media landscape, distributing news directly is more crucial than ever—yet most professionals still struggle with outdated, dial-up era technology. Your stories deserve better. ⚡

We've reimagined your experience from the ground up. By integrating AI and cutting-edge technology, we've created a platform designed for communications professionals. Our promise? An experience that is intuitive and enjoyable. Because in 2025, your workflow should be as advanced as your ideas. 🚀

# Okay, you have my attention.

## What makes Bitwire different?

We're so glad you asked.

### Speed

Why spend 30 minutes wrestling with data entry when AI can do it in less than 5? Let our AI-assisted tools do the heavy lifting for you.

### Price

Irritated by confusing pricing models? We're redefining the industry with transparent, competitive pricing. Pay for only what you need, when you need it.

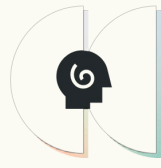

### Reach

Looking to elevate your brand's reach? We'll provide you with top-tier distribution options via our curated list of premium publishers.

### Simplicity

Tired of antiquated tools and clunky processes? Us too! We combined cutting-edge technology, purposeful automation, and an intuitive UI to create something better.

### Expertise

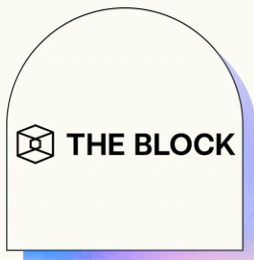

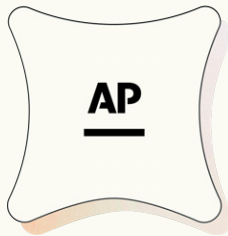

Tired of paying for a bunch of obscure publications when you just needed one high-quality, shareable link? Traditional newswires run on outdated tech which search algorithms have outsmarted.

### Support

Product demo? Quick question? Stuck on something? No worries. Our crew is all in on your success and ready to assist whenever you need us.

# Our Team.

KELLEY

## Vision

"The spray & pray model is out. As a modern PR team, we crave transparency, quality distribution and efficiency that just didn't exist before. Bitwire was born out of inspiration to rethink the model and meet the moment."

## Operations

"We set out to create the 'easy' button for distributing your PR news to places you can be proud of."

HUNTER

KAYLA

## Operations Coordinator

"We make sure your press releases flow smoothly from draft to distribution. Every detail matters when sharing your story with the world."

## Product & Design

"In an industry full of clunky tools and manual flows – we're showing what happens when you put customer experience first."

MATTHEW

JOEL

## APP Development

"We're building the technical foundation that makes the impossible possible. Modern problems require modern solutions."

## Art

"Great design is often overlooked. It's all in the details."

MARIA
