INLINE SEPARATORS

Inline Separators offer an effective way to remove waste from the dust collection airstream **before** it reaches the collector.

This reduces the frequency of emptying collector bags, extending overall system run time. Because they operate under vacuum, they must be paired with an airlock or a sealed dumpster.

ROTARY AIRLOCKS

SIZE	PRICE
8"	\$6,675
10"	\$6,915
12"	\$7,155
14"	\$7,395

2.2 cu. yd.	\$3,213

Flex hose & separator not included

LEGEND

Cyclones

Cyclones were once the go-to solution for dust collection—and they're still great for reducing the load on modern filtering systems. US Duct's Legend line offers high-efficiency cyclones with proven static drop performance.

We can also build to spec or modify designs to fit your setup.

BASIC CYCLONE ONLY

MODEL	SIZE	CFM	PRICE	Material Discharge Outlet	Air Outlet	Diameter	Height (w/o Stand)	Price

Legend Fume control provides safety and convenience—and they are related. There is nothing safe about a fume arm that people won't use. It must be easy to manipulate and it must stay in place or people won't use it. Our arms and fume extraction units are designed with the user in mind.

STANDING FUME ARMS

Model	Description	Arm Size	Price
