

Roof Stanchion Support System

Duct supports are a simple and long-lasting solution to reliably support rooftop ductwork systems. They are available in a multiple configurations for side-by-side duct or hanging underneath, or more. They are built using galvanized steel and U bolts making easily adjusted to rooftop slope. The bases are made of a $\frac{1}{4}$ " thick steel plate with four $\frac{1}{2}$ " holes and 1/2 thick rubber on the bottom to protect marring of roofing material. The cross bar has $\frac{7}{16}$ " holes spacing every 2" on top and bottom.
