GC4 CHILD CARE: CLOSING THE GAP, BUILDING THE FUTURE

New opportunities to support local workforce readiness

The new Garner Community Christian Child Care is here. Our teachers have bright classrooms for developing curious minds, our students enjoy stimulating playgrounds, our staff will never have to bring home laundry again, and community demand for quality child care is strong and growing.

But our work at GC4 is far from over. We must achieve financial stability and reach full capacity within the next year, and continued short-term investment will be critical. Other Iowa child care centers have started strong, only to struggle when state grants or local tax incentives dried up. Let's show that Hancock County is serious about a thriving local economy and investing in workforce readiness for businesses, employees, and families.

If you missed our first fundraising campaign—perhaps you weren't sure our ambitious dream would become reality—there's still time to become a GC4 partner. We completed the project within budget, but **we still need to close a $180,000 gap** for additional expenses, including architecture fees and site acquisition costs.

If you already donated, please consider extending your commitment for another 1–2 years to help us reach financial sustainability. Explore our new sponsorship opportunities, or contact us to discuss other options. With a proven record of financial stewardship and delivering quality child care, we hope you'll continue investing in GC4 and Hancock County's future.
