INSCA™ GROUP

**More than 45 years
dedicated to innovation,
quality and efficiency.**

We are the **leading business group** in Castellón (Spain) in the *design, manufacture and fitting out* of showrooms, stands, corners, commercial furniture, retail, comprehensive work area and community equipment.

Since our beginnings in **1978** as a **family business**, we have evolved to become an *international organisation* with a presence in more than 100 countries.

Our structure consists of **four specialised brands** with their own *production* and a common *technical and logistical structure* to offer a **global** and coordinated **service**:

This is our story:

1978

Small **family** carpentry workshop in Vila-real

1984

With **INSCA**, we invented the world's *first tile display stand*

2013

InscaShops, for *retail, restaurant and contract* projects.

2017

Inretail, the first digitally native company to market *commercial equipment* for retailers.

2019

Acquisition of **Kontorstil**, experts in *office spaces, communities and contract* work. Since 1988.

2022

Human Resources **Award** at the Mediterranean Business Awards.

2023

Pascual Ibáñez receives the *CEO of the Year* award from the newspaper La Razón.

Expansion of facilities to a **6000 m²** warehouse to *automate our processes*.

International Career Award.

2024

Tu Reforma TOP DESIGN **Award** for *best manufacturer exhibition design*.

2025

Certificate of *Excellent Management* (CIEGE).

Pascual and Carmen Ibáñez, second generation of the family business.

Quality and environmental commitments.

ISO 14001 and **ISO 9001** certifications, which endorse our *environmental* and *quality* management system.

PEFC and **FSC** certifications, which guarantee the use of *responsibly sourced* raw materials.

Informa elEconomista Certificate of **Excellent Management**, which recognises *growth* and *profitability*.

Solar panels covering an area of **7,000 m²**, which enable us to *reduce our emissions* by 91,600 kg of CO₂ per year.

Recycling system by product type, which ensures *proper waste management*.

Logistics optimisation, planning loads to minimise transport and emissions.

Actions for continuous improvement.

Lean methodology in production processes.

R&D&I and **digitalisation department** to drive *innovation*.

Equality Plan as part of our social *responsibility policy*.

Support for **young talent**, contributing to *carpentry training* in our province

Energy. Sustainability. People.
