

ADP Workforce Now | Connecting to RemoFirst

Integrate RemoFirst with ADP Workforce Now to make your global hiring process even smoother and more efficient.

Prerequisites

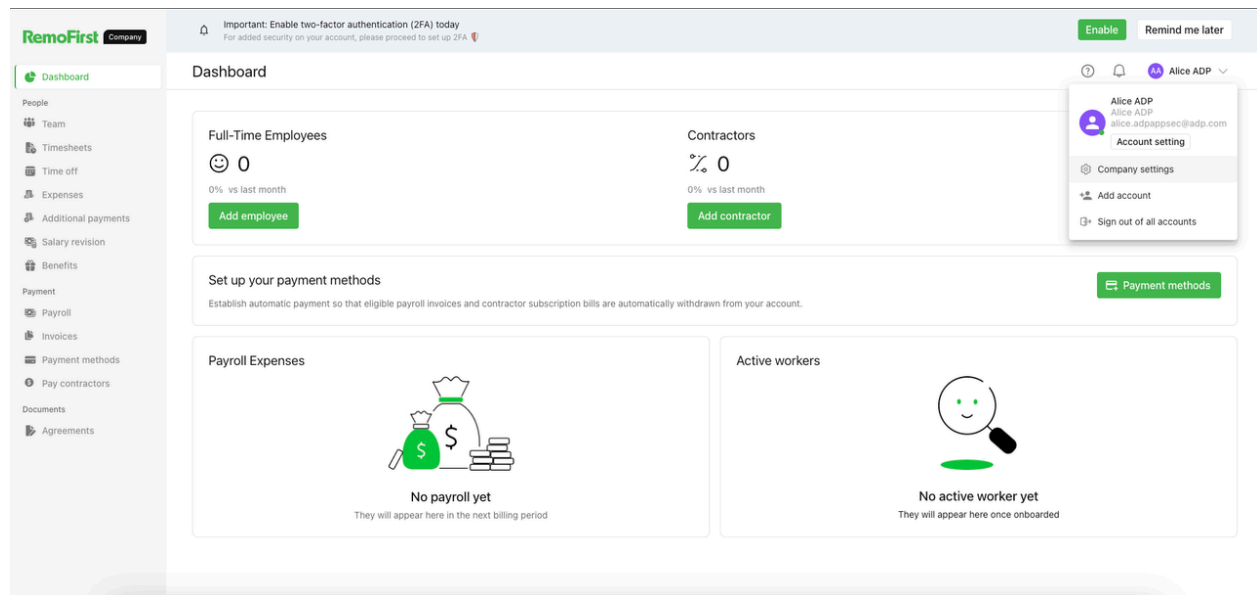

- You have a RemoFirst subscription
- You are an ADP Workforce Now Customer

Steps to Get Connected

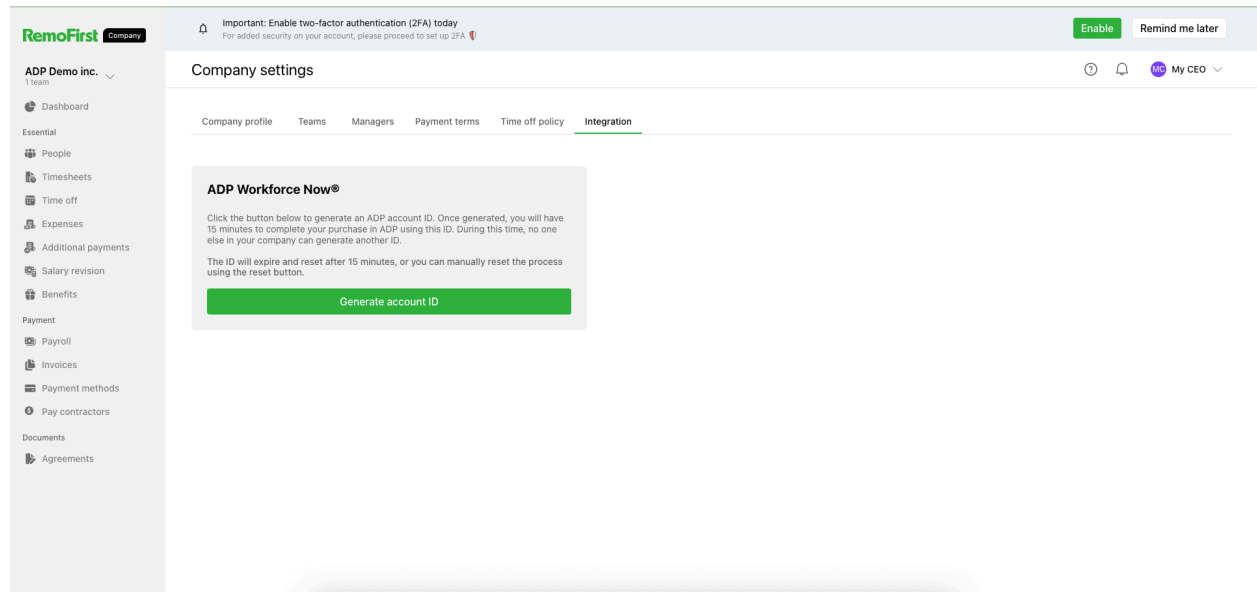

The RemoFirst user(s) roles: **Team Admin** will need to log in to access the Account ID

Once logged in, go to:

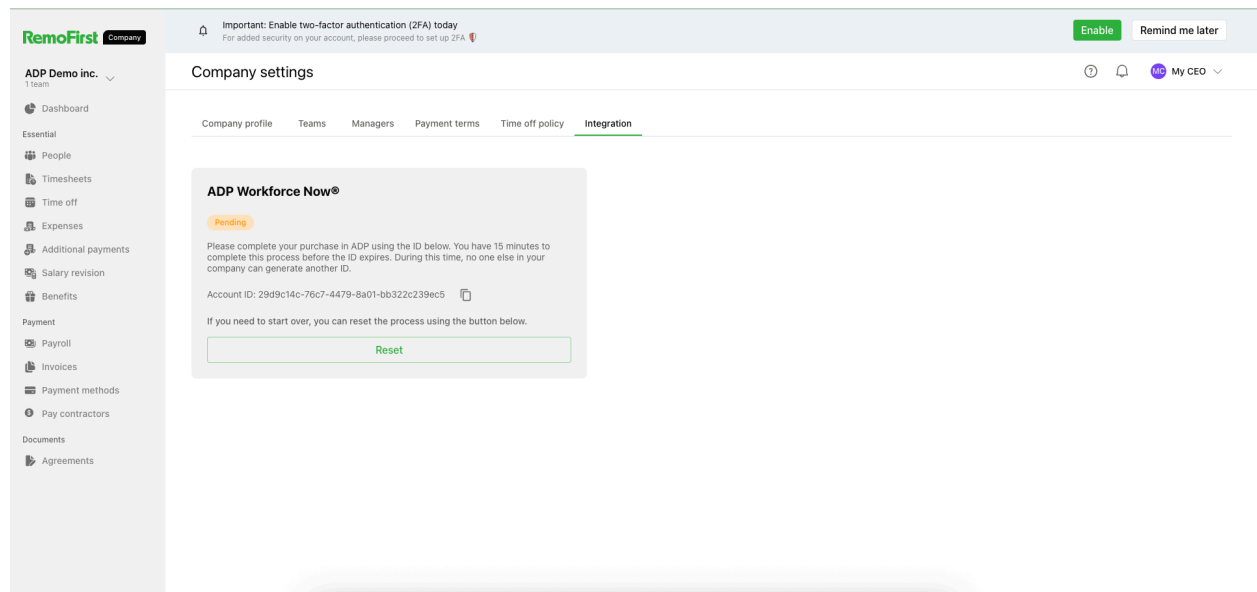

Account Settings -> Company Settings -> Integrations

In Company Settings -> Integrations you will see a prompt to Generate you ADP Workforce Now Account ID.

Click "Generate account ID". The generated ID is valid for 15 minutes or until you click "Reset", during this time, no one else from the company can generate IDs. Other users with the correct permissions they have to wait until the first one loses validity.

Copy this code.

Log In to the ADP Marketplace using your ADP credentials. Then search for RemoFirst, make sure to go to the Connector listing here, <https://apps.adp.com/en-US/apps/544489>.

Purchase the RemoFirst Connector:
