Score: / **40**

Instructions

You are **not** allowed to use a calculator to answer any questions in this test.

Your teacher will go through these instructions with you.

Questions and answers

You have **45 minutes** to complete this test.
Work as quickly and as carefully as you can.
Put your answer in the box for each question.

Use the squares in the grid on each question to show your written method or working out.

If you want to change an answer, you should rub it out or put a line through the answer you don't want to be marked.

If you cannot do a question, **go on to the next one**.
You can come back to it later, if you have time.

If you finish before the end, **go back and check your work**.

Equipment

You will need a pencil or pen and a ruler.

Marks

The number under each line at the side of the page tells you the number of marks available for each question.

7

= 2,800 + 750

1 mark

8

496 ÷ 8 =

1 mark

9

4³ =

1 mark

22 $4,038 \times 7 =$
