The SWiS service bridges the gap between the school, home, and community. We work to ensure enhanced life outcomes, positive education, and safe social and health outcomes for tamariki.

Early intervention enables SWiS to work with tamariki, their whānau and schools to improve their safety, wellbeing and educational outcomes.

What we do:

- Provide a tamariki centric and whānau friendly environment.
- Awhi tamariki and their whānau through their journey.
- Refer whānau to specialised services outside of SWiS.
- Recognise and utilise whānau strengths.
- Provide programs that support tamariki and whānau growth.

What we aim to achieve:

- Safe, socialised tamariki that have a strong sense of identity and wellbeing.
- Tamariki and whānau that are well connected to their community, whānau, hapū, and iwi.
- Tamariki that know how to manage difficult situations and who to go to for help.
- Successful transitions from primary to intermediate and intermediate to secondary school .
- Positive parenting, strategies, and skills within the whānau we work with.
- Appropriate service referrals and specialised support for tamariki and whānau .
