

**A UNIFIED EFFORT FOR A  
HEALTHIER WORK ENVIRONMENT  
IN THE AGRICULTURAL AND  
HORTICULTURAL INDUSTRY**

# THIS IS LANTLYFTET

The initiative Lantlyftet implements the Swedish Board of Agriculture's work environment strategy and is carried out by Gröna Arbetsgivare, The Swedish Federation of Green Employers, in cooperation with several organizations within the agricultural and horticultural industries.

Over a four-year period, we are striving to improve the work environment within Sweden's agriculture and horticulture sectors, aiming to reduce accidents and occupational illnesses and to promote better mental health.

A major part of the assignment is to organize peer learning sessions, ERFA, to discuss and exchange ideas about sustainable living and conditions for better health.

These meetings include the themes physical and mental health, work environment, and safety with the focus to improve well-being, profitability, and quality of life. They combine farmer-to-farmer experience sharing with practical tools and valuable insights.

## **PEER LEARNING SESSIONS**

We are developing a concept for exchanging experiences and training facilitators. These meetings are held throughout the country.

## **COURSES FOR EMPLOYERS**

We package topic-focused courses for employers in safety and work environment.

## **INFORMATION ACTIVITIES ON MENTAL HEALTH**

We disseminate knowledge, publish fact sheets, offer lectures, and present current research findings.

## **INFORMATION ACTIVITIES**

We organize webinars, lectures at industry gatherings, and participate in fairs and events.

## **BRAND CAMPAIGN**

We develop a communication strategy and are present on social media, in printed materials, and online.

## **WORK ENVIRONMENT WEEK**

An annual activity where work environment, health, and safety are highlighted with extra focus.

## **BENCHMARK**

We collect and make current research available, and implement Nordic/international results for best practice.

## **EVALUATION AND LEARNING**

Through ongoing process evaluation and adjustments, we ensure that we reach our goals.
