

# Cape European Infrastructure Reset

Actively Managed Certificate (AMC)

## Portfolio strategy

The Cape European Infrastructure Reset Equities offers a diversified investment portfolio of companies exposed to a “European Infrastructure Reset” theme.

The investment strategy is anchored on three core pillars: 1) Infrastructure Modernization: Anticipating increased spending as Europe transitions from an analogue to a digital economy. 2) Ukraine Reconstruction: As the market forecasts peace between Russia and Ukraine in 2025, significant reconstruction efforts are expected, creating imbalances and opportunities in various infrastructure sub-sectors. 3) Valuation Opportunity: European equities present a compelling case, with their valuation gap relative to US equities at a 20-year high. This theme is played via a basket of names across different industries such as construction & buildings, transport & logistics, electrification, infrastructure, and banks, with a primary focus on developed markets.

## Performance (%)

Current month	YTD	1Y (p.a.)	3Y (p.a.)	Since inception
2.51	38.41	N/A	N/A	36.98

## Information

Date	31 December 2025
