

Upgrade Your Workflow With ZIMBIS®

ZIMBIS® Smart Cabinets enable you to:

-  Automate Ordering
-  Optimize On-Hand Inventory
-  Improve Regulatory Compliance

Take Control

Secure your inventory with biometric access, targeted single item access, and centralized inventory management.

Optimize Workflow

Enhance efficiency with electronic ordering, advanced BI reporting, and seamless billing integration into existing lab systems.

Maximize Profit

Reduce COGS and cut costs by eliminating overnight orders, reducing inventory hold times, and optimizing order accuracy.

ZIMBIS® Tower + Flex Double

MashuraOS – The Operating System Behind Inventory Intelligence

1. Items Removed ○

Initiate reorder when min-level is reached

2. PO sent ☾

PO automatically generated with supplier

3. PO Confirmed ●

Admin confirms PO and sends to supplier

4. Orders Arrive ●

Packaging displaying supplier order number

5. Replenish ●

MashuraOS directs admin on where to replenish each item
