HYDROVAC

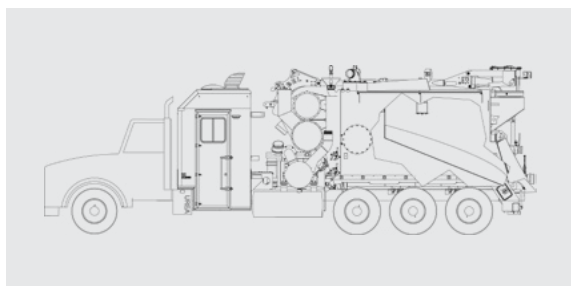

HURRICANE XL

THE SAME PROVEN CAPACITY, NOW RE-ENGINEERED FOR MAXIMUM DEBRIS HANDLING

While the HXL matches the H1's overall capacity, it features a redesigned water-to-debris ratio, delivering reduced offload cycles. This maximizes payload efficiency without sacrificing power and durability.

FEATURES

HXL STANDARDS

| | |
|------------------|---------------------------------------|
| DEBRIS CAPACITY | 14.0 cu.yd |
| WATER CAPACITY | 2,010 USG |
| BLOWER | Robuschi 125, 135 or 145 |
| CFM | 3,500 to 6,676 CFM |
| WATER PUMP | Up to 20 GPM @ 4,000 psi |
| WATER HEATER | 590,000 to 980,000 BTU |
| BOOM | Rebel 8" or 10" x 26' reach |
| REAR DOOR | Full width D-door |
| DEBRIS FLOOR | Curved and sloped |
| CROSS CABINET | 60" or 70" Aluminum Insulated Cabinet |
| SLUDGE PUMP | Optional |
| SECOND HOSE REEL | Optional |
| HEIGHT | 13' 6" |
| LENGTH | 39' 4" |
| TARE WEIGHT | 21,870 kg |
