

AIR CARGO DIPLOMA

Online | Self-Paced | Industry-Recognized

The **Manitoba Aviation Council**, in collaboration with the **International Air Transport Association**, offers a flexible Air Cargo Diploma program that spans four courses over three years. This training is designed for those seeking to start or advance their careers in air cargo, freight forwarding, or ground handling. Participants will gain a deep understanding of air cargo operations, including cargo rating, transportation service development, and effective marketing strategies. Key topics include cargo agency operations, freight forwarding, airline operations, currency regulations, and air waybill documentation. This diploma is tailored for newcomers, junior management, and sales staff in the air cargo industry, equipping them with essential skills for success in a fast-paced sector.

Who Should Enroll

- Newcomers to the air cargo and freight forwarding industry
- Cargo agent and air freight forwarder sales and marketing staff
- Airline and manufacturer reservations and acceptance staff
- Cargo agent, freight forwarder and airline junior management

What You Will Gain

- Apply cargo rating principles
- Manage air cargo shipping processes
- Identify shipper and consignee needs
