

Junior Management Consultant

We are a small but strongly connected business consultancy and work with some large European energy companies. We have started to grow into a wider recognised brand and currently have a physical presence in the three countries Cyprus, United Kingdom and Germany. We are now aiming to further expand our footprint by growing our team in all those countries.

We are looking for highly motivated candidates to join our team as Junior Consultant. This is a great career-starter opportunity for ambitious professionals looking to work and thrive at the forefront of the European energy sector alongside our senior business consultants and market specialists with deep industry knowledge.

We are looking for a candidate who is

- A fast learner and capable of understanding highly complex topics
- An adept problem-solver with critical thinking and attention to detail
- An excellent communicator with strong presentation skills
- An expert in collecting, analysing and interpreting information
- Willing to travel within Europe if required

You will be

Developing concepts for change and supporting our utility clients in large business transformations. You may find project examples on our website www.crescentipohl.com.

We offer

- Permanent employment with great career prospects and success-based promotions
- Above average base salary and extra performance-based bonus
- 25 days of annual leave
- Flexible training budget

Please send your application to recruitment@crescentipohl.com. In your cover letter, we expect you to explain

1. what fascinates you in business consulting
2. how your experience and training enable you to be a good business consultant
3. what you need to keep a good work-life-balance and stay motivated

We are looking forward to hearing from you.

Your future colleagues
