

Louisiana Academy of Production

LIGHTS. CAMERA. ACCESS.

A new era of education arrives in Baton Rouge in August 2026. The Louisiana Academy of Production (LAAP) is a groundbreaking charter high school built on high-concept innovation and student-led success.

Louisiana Academy of Production

MISSION STATEMENT

Louisiana Academy of Production:
Empowering the next generation of filmmakers with hands-on learning and career-ready skills so that they can shape the future of the film and television industry.

OUR VISION

To be the national model for public education that gives students the skills and industry access required to thrive in the world of film and production.

College Prep

The Louisiana Academy of Production will offer students both a college-preparatory diploma and the opportunity to graduate with a 9-credit career pathway within the production industry.

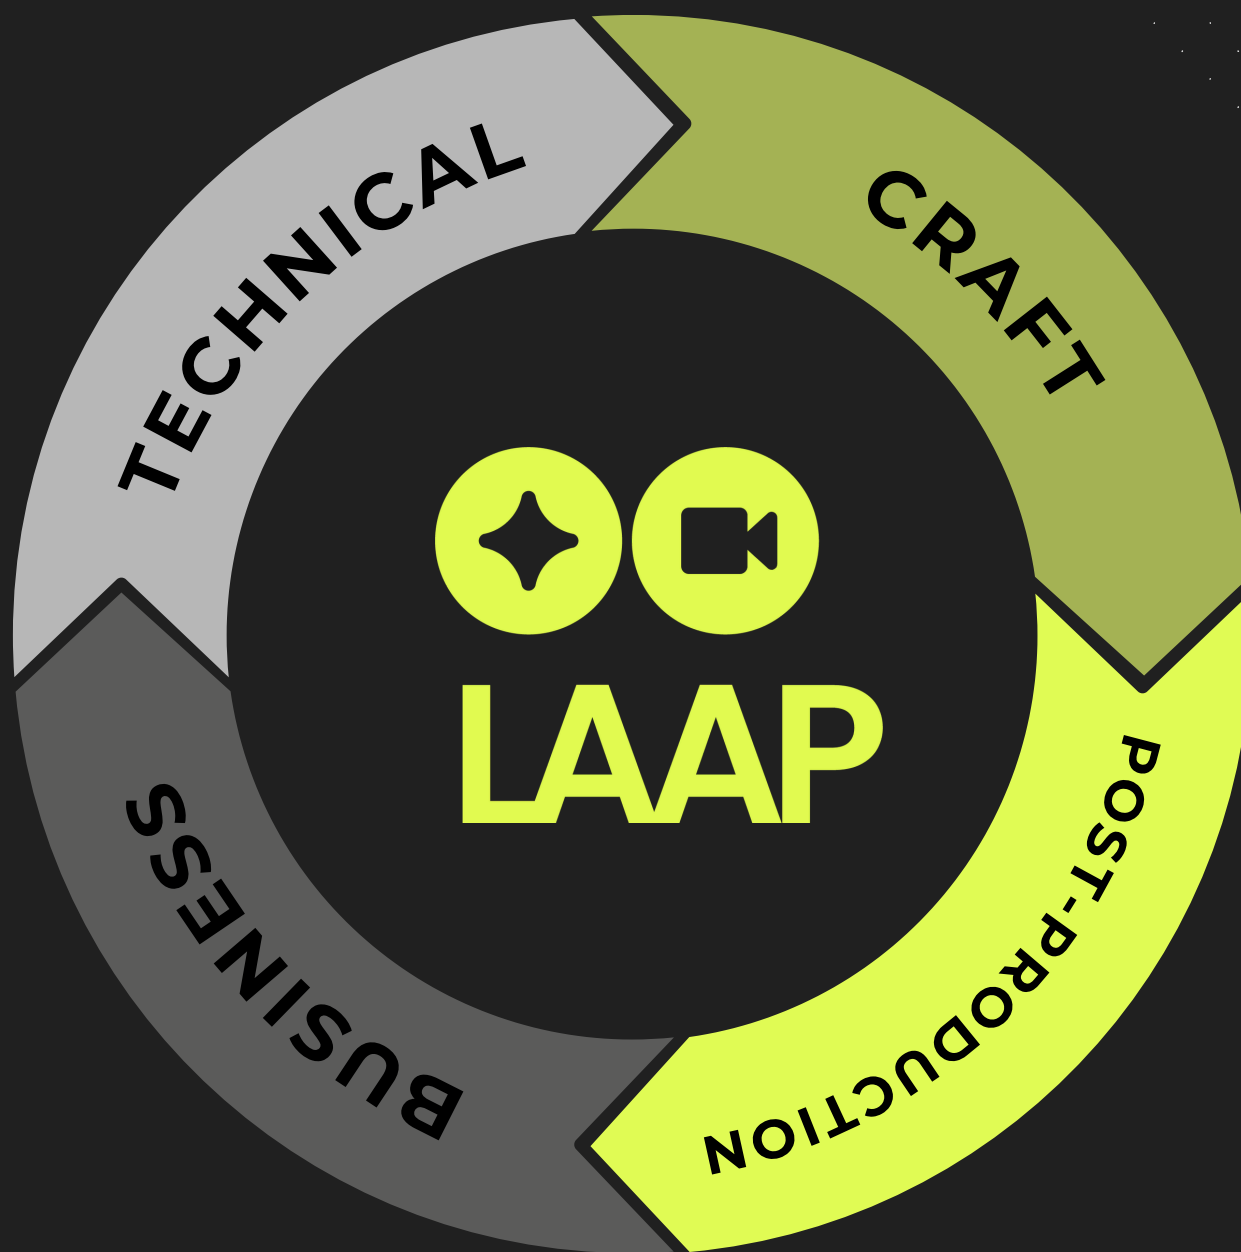

Career Pathways

The career pathways at LAAP will prepare students to enter skilled, high-demand production jobs in areas such as camera/grip, costume and set design, and post-production editing.

Shaping the future of Film & Television through public education.

OUR PATHWAYS

Dive into the technical side by operating cameras, setting up lighting and sound, and managing the electrical needs on a film set.

Get hands-on with set design, art direction, hair and makeup, and costume design to bring a film's visual story to life.

Discover how to turn raw footage into captivating films through editing, sound mixing, adding visual effects, and animation.

Explore the business side of movies, focusing on accounting, film financing, distribution, and marketing strategies.
