

## PCSD CAPITAL PROJECT UPDATE

**FRIDAY, DECEMBER 19, 2025**

The 2025 Capital Project was approved by the community's voters on May 20, 2025. The community has authorized a **\$15,000,000 project** to update and renovate our school district's facilities.

The first major milestone of the 2025 Capital Project has been achieved: the school district's architectural firm **Bernier Carr Associates (BCA)** has submitted the project to the **State Education Department** today. Now, the project's intended scope of work will be reviewed by NYSED and we're hoping for State Ed's approval within 2-4 weeks. From that point, the District will begin soliciting bids for contractors during the winter months.

Capital Project work is planned to begin as soon as classes end on Friday, June 25, 2026. Upon project approval by SED, we'll be launching a Capital Project webpage with information.

Best wishes for upcoming school recess period!  
Scott
