WELCOME

According to readers digest, if you want to be amazed by facts than you should know... the world’s oldest wooden wheel has been around for more than 5,000 years (it is housed in the city museum of Ljubljana, Slovenia. And that dead skin cells are the main ingredient in household dust (we shed about 200 million cells each hour). And that Sudan has more pyramids than any country in the world (around 255 compared to Egypt’s 100). And that the bumblebee bat is the world’s smallest flying mammal (weighing in at 0.05 ounces and located in southwest Thailand). Amazing. The story of God’s church in the book of acts describes how people were “amazed” at what God did. Let’s study Acts 2.

Welcome to Centerville.
