Governed Modernisation. Built to Perform.

Legal teams are under pressure to modernise while controlling cost and managing risk.

Consilio Legal Transformation Services delivers structured, end-to-end transformation that aligns operating model, technology, data, and delivery. Our experts span digital readiness, AI, integrations, data migration, process optimization, change management, user experience, and legal spend.

The result is a more efficient, effective legal function that reduces the cost of delivering legal services and performs at scale.

Our Integrated Transformation Model

LTS aligns operating model, technology, governance, and delivery across the legal ecosystem.

What we help you achieve:

- Lower legal spend with improved cost predictability
- Reduced operational and regulatory risk
- Faster, more scalable legal workflows
- Greater control over legal data, systems, and decisions
- Stronger ROI from technology and AI investments

RESULTS

Client satisfaction

The LTS Operating Framework

Legal Systems

Design and deliver ELM, DMS, and CLM programs that optimize law department management, accelerate contracting and reduce exposure.

Key Capabilities

- Vendor selection and RFP management
- Readiness across process, templates, and governance
- Implementation, integration, and managed services

OUTCOME

Faster contracting. Sustainable adoption.

Legal Department Operating Model Transformation

Alignment of structure, process, and technology to business demand. We design how legal should operate before deploying tools.

Key Capabilities

- Maturity assessments
- Operating model design
- Technology strategy and implementation
- Change enablement

OUTCOME

A scalable, efficient legal function aligned to business priorities.

GenAI Consulting for Legal

Responsible adoption of Generative AI embedded into governed legal workflows to enhance efficiency, insight, and control.

Key Capabilities

- Contract review, comparison, and risk assessment
- Bulk document analysis and summarisation
- M&A due diligence and divestments
- Litigation preparation and early case assessment
- Compliance, obligations tracking, and regulatory review

OUTCOME

Practical AI adoption that accelerates review, strengthens insight, and improves decision-making at scale.

Legal Spend Management

Advanced analytics, benchmarking, and expert bill review to optimise cost control.

OUTCOME

Predictable spend. Data-driven decisions.

Custom Legal Platform Design

Unification of fragmented systems into integrated, secure, and scalable environments.

OUTCOME

One connected legal ecosystem

Data Services

Combined legal expertise, AI and advanced data engineering to migrate, extract and seamlessly integrate complex data at scale.

- Large scale data migrations
- Custom system integration
- AI enabled large scale data extraction
- High volume data review

OUTCOME

Reduced risk and cost while enabling smarter, insight driven decision making for Legal teams.

What Sets LTS Apart

End-to-End Accountability

From strategy through optimisation, we own outcomes.

Governed Transformation

Change is structured, controlled, and scalable from roadmap through adoption.

Integrated Delivery

One accountable partner across technology, operations, and managed services.

Proven at Scale

Global expertise supporting complex, cross-border legal environments.

Why Choose Consilio?

Trusted Partner. Proven Results

Leading Legal Operations teams rely on Consilio to deliver measurable impact across complex, high-stakes environments.

Innovative by Design

We combine specialist expertise with forward-looking solutions that increase efficiency, reduce risk, and strengthen returns.

Global Scale. Local Precision

Operating in 20+ countries with teams fluent in 31+ languages, we support cross-border investments with consistent, on-the-ground expertise.

THE LTS DIFFERENCE

A Proven Approach to Legal Technology Delivery

Our delivery methodology maximises ROI through industry best practices and extensive experience.

TECHNICAL IMPLEMENTATION

From discovery through deployment, we deliver solutions aligned to business requirements and built for scale.

READINESS BEFORE DEPLOYMENT

We prepare across process, templates, data, and AI strategy to accelerate implementation and maximise impact from day one.

DATA & AI EXECUTION

We consolidate, refine, and activate data strategies, leveraging AI to generate insight and support informed decision-making.

CHANGE & CONTINUOUS IMPROVEMENT

We embed change management throughout the lifecycle to drive adoption, utilisation, and sustained performance.

STRATEGIC SOURCING

Where required, we manage vendor identification, evaluation, selection, and procurement with independence and rigour.

Move forward with confidence

Legal transformation fails when governance and execution are misaligned.

Consilio Legal Transformation Services ensures change is structured, controlled, and defensible from roadmap to adoption.
