****Warning: Mature Themes Ahead**** In a world where death and sex are treated with abandon, Theodora's Casual-Snuff, Free-Use Universe explores the darker side of human nature. Part 1 introduces Haddie, who has broken the rules in this free-use universe. The story follows various characters as they navigate their relationships and desires, often resulting in extreme consequences. Highlights include: * A Snuff Academy competition that turns deadly * A gang war sparked by a drive-by gone wrong * A class divided into groups for a snuff examination * A single-class battle royale where only one can survive * A clash between the snuff regime's elite and the resistance Additional stories delve into themes of cannibalism, vore (the act of eating another person), and dolcett (a form of cannibalism). These tales explore the boundaries of human desire and the consequences that follow. Some examples include: * Boruto Uzumaki's willingness to do anything for his wife * A group of kunoichi on a tropical island vacation, with only three surviving * Karura's special feast as a reward for her son's role in the Konooha Crush plot These stories are not for the faint of heart and contain mature themes, including cannibalism, nonconsensual relationships, and abuse. This collection of texts appears to be a compilation of various stories and descriptions related to themes of cannibalism, violence, and eroticism. The content is predominantly categorized under the "cannibal" and "dolcett" tags, indicating an extreme form of fiction involving non-consensual cannibalism and other forms of harm. Stories described include narratives about characters such as Hermione and Ginny preparing a special meal for their anniversaries, the Otsutsuki race maintaining honor through parental roles, Kagome being made into a stir fry, Samui in an unbelievable position due to a bet with Karui, and Nico Robin using her devil fruit powers in a morbid way. There is also mention of stories involving feeding, fucking, and locking someone in a cage by Hux, who wonders what it would be like to be spread open that far for Kilo. Other tales include Underswap Papyrus as a skelesquirrel, Tale Sans as an anthro fox, Toriel trying a new recipe on Sans, dinner fighting back, cannibalistic observations, and a dystopian world where young boys seek death. The text concludes with a warning to readers about the content of these stories, mentioning extreme erotic violence, death in a fictional setting that might be disturbing. The website features a series called "Walker's Amazing Big Bang Pills" with explicit content, including extreme violence and death in a fictional setting. It also contains graphic descriptions of asphyxia and underwater situations, classified under the theme of consensual execution.
