

The magic of wine - A journey through Europe

Wine is more than just a drink - it tells stories, connects people and reflects the soul of a landscape. Cultivated for centuries, it is a constant companion to celebrations, friendships and quiet moments of enjoyment.

Due to space constraints, but also out of conviction, we have dispensed with wines from the 'New World'. You will find our favourite wines in our cellar, wines from the Bündner Herrschaft, the vineyards that are geographically closest to us. And classics that you simply love - especially rarities from Bordeaux and Burgundy.

We had the special opportunity to purchase selected wines and long out-of-print rarities from Jörg Bucherer's former wine cellar.

Jörg Bucherer was a visionary entrepreneur and the long-standing owner of the Bucherer watch and jewellery brand, which he developed into an internationally recognised company. This private wine collection is considered to be one of the largest and most valuable in Europe.

We hope you enjoy our wines and are available to advise you at any time.
