Stromversorgung (USV) an. Produkte erworben wurden in Nord-/Süd-/Mittelamerika, im asiatisch-pazifischen Raum oder nicht-EU-Ländern innerhalb Europas, dem Nahen Osten oder Afrika; 90 Tage für alle bei Iomega überholten Produkte, die in diesen Regionen erworben wurden; zwei Jahre für Produkte, die von Endverbrauchern in EU-Mitgliedsstaaten erworben wurden. **Troubleshooting Iomega Home Storage Manager** 1. If you're unable to find the storage device, try the following: * Ensure the device is turned on. The indicator light on the front should be lit with a steady blue glow. * Check that you're using a functioning Ethernet cable. * Verify that the link indicator on the back of the device is lit. 2. If you've purchased multiple Iomega Home Media Network Hard Drives, complete the setup process for one before configuring others. 1. Use the included network cable to connect the storage device to a network hub or switch. **Error Resolution** 1. If Iomega Home Storage Manager cannot find the storage device: * Check that the device is turned on. The indicator light on the front should be lit with a steady blue glow. * Ensure you're using a functioning Ethernet cable. * Verify that the link indicator on the back of the device is lit. **Note** If you've purchased multiple Iomega Home Media Network Hard Drives, complete the setup process for one before configuring others. **Troubleshooting Guide** If you receive a firewall warning about network activity, click "Unblock" to allow it. For Mac users: Iomega Home Media shared folders should be installed and visible on your desktop. PC users: Shared folders from the Iomega Home Media drive will be automatically assigned drive letters and available. **Problem-Solving Steps** * If the Iomega Home Storage Manager cannot find the drive, try: + Ensuring the drive is powered on (LED light should be blue). + Using a functioning Ethernet cable. + Verifying the LED connection indicator in the back of the drive is lit. **Quick Setup Warning** If you purchase multiple network hard drives from Iomega Home Media, perform all setup procedures before adding additional devices. Follow these steps: 1. Connect the network hard drive to your router using the provided Ethernet cable. 2. Plug in the power cord and connect it to a wall outlet or UPS. **Help and Support** * If you encounter issues with the Iomega Home Storage Manager, try restarting the program or rebooting your computer. * If problems persist, contact our support team at [www.iomega.com/support] (. **Copyright Information** Iomega Corporation owns all rights to this product.
