In the world of Mario Kart, a variety of colorful characters take to the track. Among them is Rosalina, who, with her Fire Flower, can unleash fireballs at enemies, slowing them down and spinning them off course. Additionally, she has a protective shield that activates when hit by enemy attacks, allowing for counterattacks. Another character, Dry Bowser, is equipped with a massive cannon on his kart, which fires bob-ombs at the competition. This feature not only causes trouble but also allows for an upgrade to add another cannon, increasing the challenge of navigating through obstacles. Dixie Kong's Triple Bananas offer a unique advantage by granting a shield when hit and stacking up ammo for counterattacks, providing both protection and firepower against enemies. Green Shell is a powerful item in Mario Kart Tour, capable of knocking out an opponent instantly when thrown towards them. Lemmy's skills are similar to Baby Rosalina's, and can be upgraded for extra movement speed on the bubble. Baby Daisy's skills are somewhat overwhelming, summoning bubbles that offer little utility. This justifies her lower tier placement. Fire Bro's Fire Flowers skill is one of the best in the game, dealing continuous damage to opponents and setting roads on fire with fireballs.
