

# Playearnode Roadmap – 2025 to 2026

Welcome to the world of **Playearnode**, the Web3 gaming platform where **skill, betting, and rewards** come together in one competitive experience.

## Our Mission:

Build fast-paced, fun, and accessible games

Make betting simple, transparent, and fair

Empower a new generation of competitive Web3-native players

---

## July 2025 – First Milestones

- **Beta launch** of our first game: *Corgi in Space*
  - Official community onboarding: **Discord**, **Telegram**, early leaderboards
  - **TON** becomes the first supported currency for betting
- 

## August 2025 – Farming Mode (Pre-Token Launch)

- Launch of the **Farming Mode**: users can **stake to accumulate \$PND** for 30 days
  - A way to **reward early supporters** of the ecosystem
  - Exclusive access to upcoming benefits and features
- 

## September 2025 – Airdrop + \$PND Token Launch

- **Airdrop** of the \$PND token to all Farming Mode participants
  - The **\$PND token goes live and becomes tradable 24h after the airdrop**
  - From this point forward, \$PND can be used to:
    - **Bet and play in the app**
    - **Access bonuses and perks**
    - **Earn and redeem rewards**
- 

## October 2025 – Game & Community Expansion

- Gameplay updates for *Corgi in Space*
  - Launch of **Eating Bet** – an innovative **1 vs ALL** game format
  - First **community events, contests, and giveaways**
-

## November 2025 – Platform Foundation

- Development of the **Playearnode betting platform MVP**
  - Design phase of the **mobile and web app**
  - Initial implementation of \$PND utilities: betting, leveling, rewards
  - Launch of the **developer onboarding program** for third-party games
- 

## December 2025 – Platform Alpha Release

- Release of the **alpha version** featuring:
    - **Player dashboard**
    - **Matchmaking hub**
    - **Early multi-game betting system**
  - Community testing and security audits
- 

## Q1 2026 – Official Platform Launch

- **Full release** of the Playearnode App (mobile + desktop)
  - Integration of multiple games: *Corgi in Space*, *Eating Bet*, and more
  - Key features go live:
    - **Tokenized leaderboards**
    - **Staking rewards**
    - **Integrated in-app wallets**
  - Start of **third-party game integration** via SDK/API
- 

## Beyond 2026 – The Long-Term Vision

- An **open, competitive, and decentralized** ecosystem of skill-based Web3 games
- **Community governance** through the \$PND token
- **Real-life tournaments**, exclusive drops, and seasonal events
- Playearnode becomes the **go-to Web3 arcade**
