Looking forward to seeing everyone at the meeting tomorrow and discussing our strategies. Maxing out your fondness with a citizen triggers a message saying "[NPC] likes you very much!" After reaching maximum hearts, giving gifts becomes pointless since your fondness can no longer increase. Some NPCs have rewards for reaching certain heart milestones. When receiving a relationship reward, be patient as it may take a few days to arrive. Ensure you've reached the correct heart level by gifting an NPC and checking their journal. As relationships progress, NPCs will send gifts via mail and unlock events based on your fondness levels. To become friends or romantic partners with citizens in Harvest Town, increase your fondness through daily conversations, completing quests, mail requests, gift giving, and reaching story milestones. When you reach the top of an NPC's fondness level, they'll say "[NPC] likes you so much." The community interface displays the list of villagers and their relationship progress (hearts) with you. Check the Phone's Community tab to track your relationships and unlock "like gifts" when certain milestones are reached. Affinity quests also help improve NPC fondness, granting a significant boost in relationships while revealing character lore. Gift giving is another quick way to raise affection, but be mindful of daily limits (one gift per citizen). Check the NPC Gift Table for their favorite items and likes/dislikes on individual character pages. Gift quality can slightly increase fondness, and birthdays have double the normal fondness effect. Monitor bulletin boards or community tabs for birthday notifications. Citizens react differently to gifts, resulting in varying levels of increasing fondness. In the game, you might receive a gift from someone, and there are four classes of gifts: favorite, liked, neutral, and disliked. The favorability depends on your relationship with that person. As you level up your hearts, you can have romantic dates with the bachelors or bachelorettes. You'll need to prepare an invitation letter for each date, which can be obtained by completing tasks, making conversations, or buying it from the shop. There are different dating scenes available, such as beach, bar, and aquarium dates. Going on a date can increase your fondness with that person, and you might receive wedding decorations as a reward. You can also gain extra fondness points each day if you have an invitation letter. The player can date multiple times per game day and even date different NPCs. To get married, you'll need to reach 12 hearts with your partner and gather 2,849 diamonds to buy the necessary items. Currently, only Fay, Lee Yau, and Foxy are available for marriage. To complete the wedding, you'll also need to gift your partner 7 love bouquets and a wedding ring.
