Yes! What? Love Hotels are very popular with Japanese citizens. Love hotels can be used by foreigner tourists visiting Japan too. However, they do discourage you for booking longer than one night, as they are hotels encouraged for short term use for couples. So, it’s definitely not a place that you would intend to stay in for longer than one night during your stay in Japan.

Image Credit: @yako\_fldr3Credit: RentKano Japan, a land of rich culture and tradition, offers a unique service that might intrigue you – the opportunity to rent a friend, whether it’s for companionship, guidance, or simply to experience local culture. While some people seek companionship that resembles a girlfriend experience, others may be looking for friends, parents, or even mentors. Here’s a guide on how to rent a friend in Japan.
Types of Rental Companions:
Girlfriend Experience (GFE): If you’re looking for a more romantic experience, some services provide the option to rent a “girlfriend” for a day. They can accompany you on outings, have conversations, and create memorable moments. Costs for GFE experiences can range from ¥5,000 to ¥15,000 per hour, depending on the level of service.
Friendship Companions: If you seek a platonic friendship, there are various agencies where you can rent friends for activities like hiking, shopping, or even just chatting over coffee. Prices for these services generally start at ¥3,000 per hour.
Parental Figures or Mentors: Some people may want to experience a family dynamic or seek guidance. You can rent “parents” or mentors who can provide advice, lend an empathetic ear, or simply share their wisdom. Prices vary, but they usually start at around ¥4,000 per hour.
Where to Find Rental Companions:
Rental Friend Agencies: Numerous agencies in Japan specialize in renting friends and companions. Websites like RentKano and “Oasan Rental” cater to various needs, including GFE and platonic friendship services.
Online Platforms: Social media platforms like Meetup and even local classified ad websites may have individuals offering companion services. Be cautious and ensure your safety when using these platforms.
Costs and Considerations:
Rates can vary based on the duration and type of service you require. Be sure to check the pricing details on the agency’s website.
Additional expenses like transportation, meals, and activities are typically covered by the person renting the friend. Most agencies prioritize safety, and both parties are required to adhere to specific guidelines.
Always communicate your expectations clearly and respectfully to ensure a positive experience.
Renting a friend in Japan can be an enriching experience, whether you’re looking for romance, companionship, or guidance. While it may not replace genuine relationships, it can offer a unique way to connect with locals and experience Japanese culture in a different light. Remember to choose reputable agencies, communicate openly, and enjoy your time in the Land of the Rising Sun with your rental companion.

Adult Gaming, Pachinko and Beyond
For those seeking a different kind of adult entertainment, Tokyo offers a unique gaming experience through its thriving pachinko parlors. Pachinko, a cross between pinball and slot machines, is a popular pastime in Japan. Visitors can try their luck and immerse themselves in the pulsating atmosphere of these colorful gaming establishments. Additionally, themed arcades and VR gaming centers provide adults with an opportunity to indulge in their gaming fantasies. Although it may be off putting and confusing by the noise and smoke scented rooms when stepping inside one of the many Pachinko halls especially within Akihabara, it is also a chance to partake in some fun gaming when in Tokyo, when playing these machines I had opted to use the 1 Yen machines, inserting a 1000 Yen note and managing to walk away 20,000 Yen up during my time playing. When you are finished playing the Pachinko machine of your choice be sure to press the cash out button and the machine should provide you with a card of which you can then take to the service counter and either claim your prize or opt for a Yen prize, if you opt for the Yen cash return instead the establishment tends to take a cut of around 10%. As gambling is not legal in Japan you will then be directed to another location which tends to be opposite the Pachinko hall to claim your cash using the card provided, although it may be confusing to understand it will certainly be an experience to remember.
Good luck!

One aspect of Japanese culture that cannot be overlooked is the tradition of onsen, or hot springs. Onsen are a beloved part of Japanese culture, offering a relaxing and rejuvenating experience. Many onsen are located in scenic areas, providing a perfect setting for a romantic getaway or a solo retreat.
In Japan, and James May is persuaded to visit one of the ever popular Maid Cafes in his programme Our Man in Japan, although he does decline but who knows how it went when the cameras we’re off. In this less than ordinary cafe, you will be greeted by maids who pretend to be your wives. The concept combines elements of cosplay, entertainment, and dining. In a maid cafe, customers are often referred to as “masters” or “mistresses,” and the interactions between the staff and customers are characterized by a playful and exaggerated sense of servitude. The maids may address customers with honorifics, offer to draw cute designs on their food and drinks using syrups or cocoa powder, engage in conversation, play games, and even sing or dance on special occasions.
Maid cafes are known for creating a fantasy-like atmosphere, where customers can temporarily escape from the stresses of daily life and experience a sense of lighthearted enjoyment. These cafes have gained popularity not only among locals but also among tourists who are interested in experiencing a unique aspect of Japanese pop culture.

Lastly, in our ultimate Tokyo adult guide, we find ourselves looking at Oppai Bars...
The closest equivalent is what was called a “topless bar” in English starting in the Sixties: places where men (mostly) are served drinks by a topless female-presenting waitress. The term “oppai” (おっぱい) is a colloquial Japanese word that refers to breasts. Oppai bars, also known as “breast bars” or “breast pubs,” are places where customers can interact with female staff members who typically wear revealing or provocative outfits that emphasize their cleavage. The primary focus of oppai bars is on providing a sexualized and fantasy-like experience for customers. Staff members may engage in conversations, play games, and create a playful atmosphere around the theme of breasts. These establishments are often considered part of the broader category of adult entertainment in Japan. There are a large number of Oppai Bars in Tokyo, take a look at:
