

About Aizen

Aizen is an agentic AI platform where multi-method agents orchestrate intelligence across your operations - predicting issues, automating decisions, and executing auditable workflows with human oversight.

Aizen operates from its headquarters in San Jose, California, alongside a cutting-edge development center in India focused on advancing AI and ML infrastructure.

BEYOND LLMs: Enterprise-Grade Agentic AI Platform

✗ THE PROBLEM: ENTERPRISE AI CHALLENGE

Disconnected AI tools slow deployment and increase operational risk.

✓ THE SOLUTION: ENTERPRISE-GRADE AGENTIC AI PLATFORM

Orchestrated Intelligence

Adaptable • Transparent • Compliant

ORCHESTRATE

Multi-Method Agentic AI

- LLMs + Rules + ML Models
- Event-Driven Architecture
- Human-in-the-Loop
- 100% Auditable

FORESIGHT

ML/AI Intelligence

- Real-Time Feature Store
- Low-Latency Model Serving
- Drift Detection & Monitoring
- Versioned Model Registry

Real Results. Real Customers.

100%
Decision Auditability

2-5x
Faster Pilot to Production Cycles

Up to 60%
Reduction in Manual Effort

85%
Faster Diagnosis
