IN HONOR OF OUR NATION' WAR DEAD

MEMORIAL DAY May 30

May 30th is Memorial Day, first officially observed in honor of the nation's war dead at Washington, D.C., 95 years ago -- in 1868. Memorial Day, or Decoration Day, began during the Civil War when Southern women in Vicksburg and Columbus, Mississippi, and Charleston, South Carolina, decorated Union as well as Confederate graves. Ethen Major John A. Logan became commander of the postwar Grand Army of the Republic, he issued an May 5, 1868, his famous order "That every post of the Grand Army should hold suitable exercises and decorate the graves of their dead comrades with flowers Let no

ravages of time testify to coming generations that we have forgotten as a people the cost of a free and undivided Republic." May 30th, a time when flowers are at their best, was chosen as the date, and the first Memorial observance was held in Washington. Ambulances carried flowers to Arlington Cemetery from the Botanic Garden, the Treasury grounds, and the President's conservatory and private gardens. General Ulysses S. Grant, Presidential nominee, was in the stands, and General James Garfield, then in Congress but later to become President, gave the oration. (ACNS)

Garrison Holds McKeithen Best

District Attorney Jim Garrison Monday said that if he decides to run for state attorney general it will be on John McKeithen's ticket.

Garrison said he would make up his mind one way or the other and announce his intention in "early June."

But regardless of his decision, said Garrison, he will support McKeithen in the governor's race.

"In my talks with him I have been very much impressed. I think he is best qualified for the job," said the district attorney.

McKeithen is director of the Third Public Service Commission District.

ITALO-AMERICAN
YOUR ROVING REPORTER ROVING ON BROAD AVENUE
Finds many Interesting Items

After reading an article in the Reader's Digest about fire warning systems, and also "I Smell Smoke" by Paul W. Kearney; I made an appointment and had a very informative meeting with Mr. MARION R. NEYREY of VANGUARD FIRE EQUIPMENT CO., located at 1300 N. Broad Ave., New Orleans.

Let me be a little gruesome and quote from Mr. Kearney's book: "DISCOVER YOUR FIRE EARLY. THE FIRST FIVE MINUTES AT A BLAZE ARE WORTH THE NEXT FIVE HOURS". "Now I lay me down to Many people have difficulty believing that somebody in the family won't be aroused in time if fire strikes. Perhaps the classic example of fire's stealth occurred in Cleburne, Tex., where a man was awakened by an angry glow reflecting from his ceiling. Looking out, he saw a neighbor's house so completely involved that flames were coming out of every window, so he dashed to the phone and gave the alarm.

Next morn'g, when the embers had cooled somewhat, the firemen found three blackened metal beds in the cellar where they had dropped when the ground floor gave way. On each bed were the earthly remains of two bodies, lying in exactly the position in which they had slept. Burned beyond recognition, they were not even dislodged by the drop into the cellar."

It is obvious - NO WARNING OF FIRE!

Reliable and Inexpensive warning systems are available.

Ble:

1. Mechanical-VANGUARD - units are portable and you may hang one in each of as many rooms as needed. They are portable in that you can take one or more to the summer camp for the weekend. Some traveling people take one to hang in Motel room.

2. Electrical-ZONALARM - Equally as dependable and efficient as the Mechanical type, and a control panel tells you where the fire is located; also has outside warning system.

Space does not permit me to go into detail about these two life-saving systems, so just let me say that I have personally checked these two systems and that they are Fire Underwriters Lab. approved, and accepted by FHA, and City and State Fire Department.

Before putting it off - call Mr. Neyrey or Mr. Allen at the VANGUARD EQUIPMENT CO. Phone - 488-5532.

Closely in line with the above, I talked with CHARLES L. BICKSLER, office manager of INSUL-SEAL OF LA. INC. located at 1023 Race Street. First of all Mr. Bicksler knows what he is doing, and even so was verified by ZACH T. HEARD, President of the company that I talked, to later.

As the company name implies they insulate your attic; and this happens:... lowers room temperature 15 to 20 degrees.... product checked by University of Illinois; product impregnated by 13 different chemicals....void of moisture....will not attract insects....will not retain any heat....will not pack....highest "K" factor per inch....you look that one up....at lot of things it will not do....but one thing this product as applied by INSUL-SEAL will do is seal your attic-- call 524-1117, and Mr. Heard or Mr. Bicksler will help you.

Mr. Auveston Gary is sole owner of GARY MOTOR CO., located at 214 N. Broad, 700 Metairie Road, and 4120 Canal St. Mr. Gary knows used cars and will be glad to help you. Phone 524-7642.

MR. LAWRENCE J. MARTELLO, has been in the plumbing business for 32 years and also knows what he is doing. You may call L. J. Martello Plumbing Co., JA. 4-2653, and he'll know what to do.

Everyone understands a Drug-store, or do we; call MR. A. J. HYMEL, HU 2-6915, and he will take care of your needs from 741 N. Broad A. J. Hymel Drug Store.

di Joseph R. Collier
E' edificante oltre ogni dire vedere gli sforzi di singoli per tenere vivo il sentimento italiano in questa Comunità di New Orleans

Le distanze sono ormai accorciate fino al punto che il mondo, che aveva connotazioni straordinarie e sbalorditive, è ridotto al minimo comune denominatore.

Tanto più ora ha valore chi è capace di esprimersi in più di una lingua. Ed è cosa semplice riattivare la Comunità italiana se la buona volontà non vien meno.

Mentre il numero di coloro che hanno interesse è minimo non è detto che non si potrà sfociare in più larga area e ritrovare l'espressione che darà un più elevato carattere alle cose italo-americane, alla gente italo-americana e quindi rifarsi alla dignità di chi non nega, né nasconde la stirpe, anzi dà conferma al divenire storico ferma al divenire storico della vita americana e diviene maggiormente consapevole del fatto che con l'accorciarsi delle distanze la lingua rimane la sola barriera.

'LA CONDESA NELLY'

La impresion de la esfera terrestre esta retratada en el rostro. Su edad data desde hace muchos años. Su sabiduria viene de otro planeta, quizas el Sol que dista 57 mil kms. de la Tierra. Mercurio es quien dio la gran luz a su personalidad, y la Luna palida y observadora deja a Marte con su color purpureo qui guia si mente.

No es un personaje que cree en lo místico, ni supersticiones; es alguien que su gran experiencia de años, la coloca en el pedestal alto de un gran poder de sabiduria.

Su blanca figura pocas veces ha sido vista; pero aquellos que han tenido la suerte de pudir sus favores, se los ha otorgado, mas por el bien de la humanidad que por ningun otro fin, porque ella concede el bien sin miras interesadas a todos los que de ella necesitan; y asi mirando a travez de su blanca sureola, vino hacia nosotros para pader aconsejar, no tan solo en amor, pero cualquier asunto perplejo o que necesite el buen consejo de la "CONDESA NELLY".

Dirija sus preguntas a la CONDESA NELLY, INTERNATIONAL REVIEW, 1025 Barracks St., New Orleans 16, La. Firme sus preguntas con iniciales o usando un pseudonimo y la CONDESA NELLY las contestara en futuras ediciones de esta Revista.

Tirón de Orejas a Fidel Castro

Coméntase aquí que Nikita Krushchev necesita tener a Fidel Castro unos días a su lado para hacer comprender al fogoso dictador cubano que pasó ya la época en que era "el niño consentido" de la Unión Soviética. Ahora que cualquier paso en falso puede provocar una hecatombe universal, los hombres de paja y los niños precoces del Kremlin deben someterse a las órdenes de su amo y señor y no permitirse exabruptos peligrosos ni cometer indiscreciones que más tarde pueden comprometer al muy comprometido Nikita.

Naturalmente, esas razones no son las que se hacen valer. En Moscú y en La Habana se ha dicho que Krushchev tiene interés muy especial en que Castro conozca bien la Unión Soviética y en que durante su estadía en Moscú "se discuta ampliamente" la manera de estrechar aún más las relaciones entre los dos países.

Ya no es ningún secreto que para sostener a Castro en el poder Krushchev ha ordenado, no obstante la creciente oposición que está encontrando, que se suministre a Cuba ayuda económica por el equivalente de un millón de dólares diarios.

Sábese que perdura la irritación de Castro por el retiro de los cohetes y los aviones soviéticos durante la crisis cubana del otoño pasado. Su visita a Moscú quizá sirva para disipar ese resentimiento, hasta donde puede ser disipado.

También se sabe, porque lo insinuó el periódico "Pravda", que la Unión Soviética desea conocer de labios del mismo Castro cuál es la ayuda mínima que el dictador cubano necesita para poder seguir oprimiendo al pueblo de la antigua Perla de las Antillas.

Pero la pildora necesita ser dorada, aunque tal intento resulte tosco. La prensa soviética, después de anunciar la visita del Primer Ministro cubano a Moscú, pinta a Cuba como un heroico David

Colaboraron entonces con el Dr. Cruz, el prominente abogado Dr. ESTEBAN MENDOZA y el erudito jurista consulto y periodista Dr. JULIAN LOPEZ PINEDA, fundador

Dr. RAMON E. CRUZ

del diario "EL DIA" de Tegucigalpa y quien falleció en La Haya defendiendo los derechos de su Patria. Es el Dr. Cruz un convencido democrata; ciudadano honrado a carta cabal y uno de los altos y positivos valores de la actualidad hondureña.

Halagadoras Exploraciones

MANAGUA. — Concidiendo con el actual movimiento de integración económica centroamericana, que como consecuencia inmediata ha traído la instalación de varias importantes industrias en Nicaragua, se ha desatado aquí una fiebre de exploraciones petroleras, por parte de empresas norteamericanas.

En este momento, están en tramitación varias solicitudes de permiso de exploración en la Oficina de Recursos Naturales del Ministerio de Economía.

Una de las empresas, la Pure Oil Company, que ya trabaja en Honduras, ha encontrado indicaciones muy halagadoras, según se sabe, en el vecino país, propiamente en el antiguo territorio en litigio, y desea estar preparada para el caso de encontrar allí petróleo, unir las dos zonas bajo un mismo impulso empresarial.

Un funcionario de la oficina de Recursos Naturales dijo que "el petróleo que la Pure busca en Honduras, puede que haya quedado de este lado del río Coco", es decir, en territorio nicaraguense.

Una segunda compañía desea explorar sobre la mar-

que se enfrenta al gigante Goliath, norteamericano. Además, a la ya larga serie de días especiales, dedicados a algún aspecto de la campaña comunista por lograr la hegemonía mundial, los rusos han agregado una fecha para observar la "solidaridad del pueblo soviético con el pueblo cubano".

gen derecha del río Grande de Matagalpa, hasta su desembocadura en el Atlántico, sobre una extensión de seiscientos mil hectáreas. Y una tercera firma expresa su deseo de explorar toda la costa del Pacífico y parte de la del Atlántico.

El profesor George Chilling, de la Universidad de California, actualmente en Nicaragua, ha dicho que aquí hay petróleo, "y en cantidades explotables comercialmente".

Es él quien hace las gestiones en favor de la tercera empresa aludida, la Amjon Exploration Company. Por su parte, el director de la Oficina de Recursos Naturales, doctor Pablo Antonio López, dijo que "la situación es de grandes esperanzas para Nicaragua, y de gran porvenir para la Costa Atlántica, particularmente para la zona de Puerto Cabezas" (la ciudad nicaraguense más cercana a la zona supuestamente petrolífera de Honduras).

La Ley de Recursos Naturales, de relativa reciente formación y promulgación, ha afectado a concesionarios de otros tiempos, como la Waterfront Oil Company, que gastó en exploraciones inútiles, 77 años anteriores, varios millones de dólares. Un recurso de amparo que esta firma elevó ante la Corte Suprema está siendo activado ahora por sus abogados, con motivo de las últimas evidencias de que existe petróleo en Nicaragua, "y en cantidades explotables comercialmente", según expresión del profesor californiano arriba citado.

Un Mundo de Opiniones

VOZ DE ALERTA

("El Comercio", Quito, Ecuador).

"Advertimos que para la ofensiva emprendida por el comunismo para usurpar el poder en varios países de Latino América, la mejor forma de hacer frente a este peligro es subvertiendo el atraso económico y social de que se nutre el comunismo.

"La subversión comunista ha pasado a la etapa de proclamar pública y francamente su repudio a las instituciones democráticas entre ellas, a la del sufragio, y se ha lanzado por el atajo de la acción ilegal y de la violencia.

"Sin lugar a dudas, esas directivas y las correspondientes órdenes han emanado de Moscú, cuyos sociólogos y agitadores dentro d

os muros del Kremlin consideran que Latino América, con el ejemplo de Cuba, es a madura para caer en la órbita soviética.

"Pero, un pueblo con un nivel de vida compatible con la dignidad del ser humano, con cultura básica para diferenciar el bien del mal, la verdad del error, la libertad de la esclavitud, jamás podrá hacerse comunista.

"La historia comprueba que la semilla marxista, envenenada por el odio y el rencor, germina siempre en estratos sociales terriblemente erosionados por la miseria, la injusticia y la ignorancia. Superar estas condiciones constituye la mejor terapéutica contra el comunismo".

RODAS-ALVARADO POSTULADO CANDIDATO A LA PRESIDENCIA DE HONDURAS

Tegucigalpa, Abril.- El Lic. Modesto Rodas-Alvarado fue postulado candidato a la presidencia de Honduras por el Partido Liberal en la sesión inaugural de la Convención de dicho partido que se reunió el Sábado 20 de Abril en esta Capital.

Se pudieron comprobar el alto espíritu cívico, la cordialidad y la buena comprensión que privó en todo el curso de la sesión, a la que por invitación especial asistió por unos momentos el Presidente de la República Dr. Ramon Villeda Morales quien pronunció elocuente discurso recalcando su interés por mantener unidas las fuerzas democráticas de la Nación y reafirmando su posición, como Gobernante, de garantizar plenamente las libertades públicas no solo

para el Partido Liberal sino para sus adversarios políticos.

El Licenciado Andres Alvarado Puerto, en un gesto de hidalguía republicana y de altura democrática pidió se le concediera el privilegio de ser el primero en felicitar al postulado candidato a la Presidencia de la República en las próximas elecciones del mes de Octubre, su contrincante en la campaña precandidatura, Lic. Modesto Rodas Alvarado, pronunciando uno de los discursos mas significativos que se han escuchado en la historia política de Honduras. Rodas Alvarado también pronunció otro discurso lleno de emoción para enaltecer los meritos cívicos del Lic. Alvarado Puerto.

INAUGURAN REFINERIA EN EL SALVADOR

SAN SALVADOR, abril 25.- (UPI).—La primera refinería de El Salvador, "Rasa" (refinería de Aranjula, S. A.), usando petróleo crudo venezolano, ha comenzado a funcionar y puesto su producto a la venta al amparo de una ley de impuestos provisional mientras se promulga una ley permanente.

A pesar de los habituales requisitos legales de que el 50 por ciento de una empresa debe ser de propiedad salvadoreña para poder gozar de los beneficios de la ley de fomento industrial, en casos que implican grandes inversiones de capital se hacen excepciones. Una de éstas se ha concedido a la Rasa, a la que el Ministerio de Economía sólo exige un cinco por ciento de capital salvadoreño.
