Here's how it works

Simple insurance structure built to solve complex risk.

01

Empowering policyholders

This excess policy serves as a versatile dual-purpose solution that delivers rapid BI payments when activated and maintains follow-form excess when not.

02

Event occurs

Following a covered loss, the insured can trigger Parametrix BI Advance. After the advance time retention is met, policyholders unlock access to their predetermined daily BI payout.

03

Get paid fast

BI Advance delivers funds within 25 days, giving policyholders the ability to put the payment to work immediately. Top-up and clawback features ensure every claim ends with a fair and transparent settlement.
